GİRİŞ: Nostaljinin “İki Yüzlü” Doğası

Yunanca *nostos* (ev) ve *algia* (özlem) sözcüklerinden türeyen nostalji, sözlük anlamıyla yitirilmiş, geride bırakılmış eve duyulan özlemi ifade eder. Ancak bu anlam zamanla genişlemiş ve nostalji bugün “geri getirilemeyeceği bilindiği hâlde aranan bir şeyi özleme durumu”nu (Cook, 2005, s. 2) anlatır hâlde gelmiştir. Bu yönüyle nostalji, bireyin değişen dünyayla kendi hafızası arasında kurduğu rabıtayı açıkça gözlemleyebileceğimiz duygusal ve düşünsel bir tutumdur.

Barney'e (2009, s. 137) göre nostalji genellikle büyük krizleri ve radikal toplumsal dönüşümleri takip eden huzursuzluk ve kayıp hissine gösterilen bir tepkidir. Hewison (1987, s. 47) da nostaljinin bir krizle baş etme mekanizması olduğunu söyler, başka bir deyişle nostalji, birliktelik bilincini tam da dağılmaya yüz tuttuğu koşullar altında güçlendirerek toplumsal

TOPLUMSAL BELLEK VE YENİ MEDYA: DİJİTALLEŞEN HAFIZA MEKÂNLARI

Fatma Esra Öztürk¹

GİRİŞ

Toplumsal bellek kavramı, bir topluluğun ortak bir geçmiş anlatısını, hatıralarını ve deneyimlerini ifade eder. Geçmişle bir köprü kuran toplumsal belleğin, geleceğe yönelik kurucu bir niteliği de bulunur. Geçmişle ilişkili olan toplumsal belleğin oluşması noktasında geçmişini deneyimlemiş olma zorunluluğu bulunmamakta, geçmişin bilgisine sahip olma ve geçmişini hatırlama önem kazanmaktadır. Halbwachs'ın (2017) temel argümanına göre, kişisel hayatımız ve anılarımız bireysel belleğimizi oluştursa da hatırlama, toplumsal çerçevelerle şekillenmekte, dolayısıyla bellek toplumsal olarak tanımlanmaktadır.

Bireysel ve toplumsal olarak hatırlama/unutma biçimlerini inceleyen bununla birlikte, bugün geçmişin yeniden inşa edilme talebinin arka planında yer alan gerekçeleri ve ideolojik

YENİ MEDYA TEKNOLOJİLERİ BAĞLAMINDA DEĞİŞEN MÜZECİLİK, KÜLTÜREL BELLEK İNŞASI: KATAR İSLAM SANATLARI MÜZESİ ÖRNEĞİ

Oytun Doğan¹

GİRİŞ

Müze, Aydınlanma Çağı ile birlikte Batı modernliğinin simge yapılarından biri olarak hafıza ve bellek inşa eden bir kurum olmuştur. Geçmiş gösteren ve gelecek tasavvurunun yapıldığı bir mekân olması, bunun temel nedenidir. Aydınlanma Çağı'nda müze, ülkeye bağlı vatandaşlığın oluşumunda etkili bir aygıt dönüşmüştür. Millî devlet inşasında ulusun ortak referanslara ihtiyaç duyması, müzenin de bu minvalde referans sağlayan bir mekân olmasını sağlamıştır. Bunda iktidarın müzeyi bir medya aygıtı olarak kullanması etkilidir. Bunun temel sebebi 19. ve 20. yüzyılda kamusal alanda gösterimi yapılan görsel kültürel üretimlerin ulus bilincini şekillendir-

KÜLTÜREL HAFIZA VE NOSTALJİ BAĞLAMINDA TÜRK YAHUDİ TOPLULUĞUNUN DİJİTAL BASINDA TEMSİLİ

Çağla Coşar¹

GİRİŞ

Bachelard (2014: 38), hafızayı “geçmişin tiyatrosu” olarak nitelendirmektedir. Bu metaforik tiyatronun modern toplumsal yapı tarafından bir anlam bulması için, geçmişin bu görüntülerinin törensel pratiklerle birlikte, dil aracılığı ile aktarılıp korunması önemlidir. Diaspora toplumlar için hatıraların yazıya dökülmesi o hatıraları daha etkileyici kılmaktadır (Boym, 2001).

Özellikle diaspora toplumların hafıza temsilleri ile kendi kültürlerini koruma çabalarında gazeteler, bir hafıza deposu olarak büyük bir önem taşımaktadır.

KÜLTÜREL MİRASIN DİJİTALLEŞTİRİLMESİ VE KARİKATÜRLE KÜLTÜREL BELLEĞİN AKTARIMI: GOBAU DİJİTAL ARŞİVİ ÖRNEĞİ

Türkay Türkan Ünlü¹

GİRİŞ

Dijitalleşme ile şekillenen iletişim teknolojileri, özellikle ağ teknolojilerinin gelişimiyle birey ve toplumlarda bilginin oluşumunu, saklanması ve hatırlanmasını etkilemiştir. Bu dönüşümlerle değişen ve şekillenen bellek hem inşa sürecinde hem de saklanma ve aktarım sürecinde dijital teknolojilerden faydalanmaktadır. Dolayısıyla bellekle etkileşim kurma biçimlerimiz değişmektedir.

Kavram olarak bellek, Güngör'e (2015, s.61) göre bilgilerin depolandığı sabit bir alan yerine, aktif ve etkin bir işleyiş olarak açıklanan, öğrenilen ya da tecrübe edilen bir şeyin in-

GİRİŞ

Diaspora iki uçlu bir kavramdır. Milliyetçilik, vatanseverlik ve bağlılık ile ilişkilendirilirken, aynı zamanda uyumsuzluk, gericilik ve tutuculuk gibi olumsuz çağrışımlarda bulunabilmektedir. Ben, bir göçmen torunu olarak yaşamım boyunca diasporik anlarla iç içe büyüdüğümü söyleyebilirim. 70’li yıllarda her iki dedemin Almanya’ya misafir işçi olarak göç etmeleri, yalnızca onların yaşamını değil her iki ailenin kaderini değiştirmiştir. Çocukluğumdan bu yana Türkiye’de “Almancı”, Almanya’da ise “sınıftaki Türk kıızı” olmak, olumlu ve olumsuz derin etkiler bırakmıştır. Bu etkiler yetişkin bir

MEDYA BELLEĞİ VE KADIN: KADIN ARŞİVLERİNDEN YANSIYANLAR SERGİSİ

Semay Buket Şahin¹

GİRİŞ

Şimdiye kadar yapılan çeşitli kapsamlı araştırmalarda fotoğrafın sanattan gelen taklit yoluyla yansıtma doğası, kültür, öz-kimlik, tarihsel bilinç gibi konulara ilişkin araştırma konusu olmuştur. Azınlık kültürüne yönelik fotoğrafçılık pratiği metropol öz kimliğinin oluşumunda önem taşıırken, çağdaş fotoğrafçılık pratikleri de bireyleri nötr olarak biçimlendirme ve tarihsel vaka incelemelerinde yardımcı bir rol üstlenmektedir. İnsanların kendileri için inşa ettikleri tarihsel ve biyografik oluşumlarda da fotoğraf kayıtları, geçmişe ışık tutma yönünden somut bir yapıya sahiptirler. Fotoğraf imgeleri ve pratikleri, bir dizi kültürel ve politik olguyu basit bir şekilde yansıtan bir hakikatin içinde hareketsiz bir şekilde inşa etme eğiliminde olmuştur. Bu anlamda, Alan Sekula, Susan Sontag ve Gilbert Simondon'un kavramsallaştırmaları çerçevesinde

2. BÖLÜM:

TOPRAKSIZ TARIM İLE DOMATES ÜRETİMİNDE ATIKLARIN TİPİ, MİKTARI VE DEĞERLENDİRME BİÇİMLERİ 15

1. Sera tipleri itibariyle atıkların tipi ve miktarları ve değerlendirme biçimleri.....24
2. İşletmecilik tipleri itibariyle atıkların tipi, miktarları ve değerlendirme biçimleri 26
3. Bölgeler ve iller itibariyle atıkların tipi, miktarları ve değerlendirme biçimleri 28
4. Domates üretimi ile bitkisel atık miktarı ilişkisi37

3. BÖLÜM:

EN UYGUN ATIK DEĞERLENDİRME BİÇİMİ VE BUNA GEÇİŞİN EKONOMİK ANALİZİ..... 39

1. İşletme düzeyinde bitkisel atıklardan kompost yapımının, hayvan yemi elde etmenin ve toprak düzenleyici üretiminin ekonomik yapılabilirliği 42
2. İl, bölge ve ulusal düzeyde bitkisel atıklardan kompost yapımının, hayvan yemi elde etmenin ve toprak düzenleyici üretiminin ekonomik yapılabilirliği52

4. BÖLÜM:

ÇEVRESEL ETKİNLİK DÜZEYİ VE ÇEVRESEL ETKİNLİK BELİRLEYİCİLERİ 67

1. Çevresel etkinlik belirleyicileri78
2. Çevresel etkinliği sağlamanın ve atık yönetiminin getirisi.....80

YATIRIMIN YENİ ŞEKLİ KİTLE FONLAMASI: TÜRKİYE VE ABD KARŞILAŞTIRMASI

GİRİŞ

Kitle fonlaması, fırsat arayan girişimciler için yeni bir fırsat sunan ve destekçilerden yararlanarak işletmeler için kaynak sağlayan bir finansman aracıdır. Kitlesele fonlama platformu internet ortamında kolay erişim sunarak yeni teşviklerle ekonomik büyümeyi sağlamaktadır (Zengin, Yüksel ve Kartal, 2017: 22-32). Dünya da kitlesele fonlama sistemi hızlı bir şekilde ilerlemesine rağmen Türkiye’de beklenen düzeye gelmemiştir. Bu sorunun temelinde ise kitlesele fonlama tanıtımının iyi yapılmaması ve kitle fonlamasına gerekli desteğin verilmemesidir. Türkiye’de platformların tamamı ürün bazlıdır. Bunun sebebi, ürün bazlı platformlar karşılıklı finansal yükümlülük içermediğinden yasal engellerle karşılaşılmasındır (Sırma ve Sandalı, 2018).

Kitlesele fonlama sistemini geliştirmek adına hem Türkiye’de hem de dünyada çalışmalar devam etmektedir. Yeni bir finansman modeli olan kitle fonlaması sisteminin 2013-2016 yılları arasında dünyadaki yasal düzenlemeler ve fonlamalar incelenmiştir. Türkiye’de 2017 yılında kitle fonlaması ile ilgili düzenlemeler değerlendirilmiş ve önerilerde bulunulmuştur (Vural, 2019: 2). Başka bir çalışmada; Türkiye’deki kitlesele fonlama platformlarında hangi tür fonlama yapıldığı, hangi tür projelere destek verildiği, miktarları, fonlayan kişi sayısı ve süreleri araştırılmıştır. Türkiye’de faaliyet gösteren platformlarda ne tür kitlesele fonlama yapısı olduğu ve yurt dışındaki sitelerle benzerlikleri ve farklılıkları ortaya konulmuştur (Sakarya ve Bezirgân, 2018: 2). Sezgin ve Orçun’un çalışmasında Türk girişimcilerin kitle fonlaması uygulamasının neden başarısız olduğu yönünde incelleme-

BORSA İSTANBUL'DA AŞIRI GÜVEN ÖN YARGISI: İŞLEM HACMİ GÖSTERGELERİ İŞIĞINDA KARŞILAŞTIRMALI BİR İNCELEME¹

Cihan Yılmaz

GİRİŞ

Psikolojik ön yargıların iktisadi karar alıcıların davranışları üzerindeki etkilerini gösteren yeni bulguların ortaya konmasının ve borsalarda gerçekleşen yüksek işlem hacimleri ile ortalama üstü getirilerin varlığının tespit edilmesinin ardından standart teorilerin bahsi geçen normalden sapmaları açıklamada yetersiz kaldığı görülmüştür. Ardından klasik iktisat ve standart finans teorilerinin temel varsayımları güçlü biçimde eleştirilmeye ve buna karşılık yeni teoriler ve modeller ortaya konmaya çalışılmıştır. Özellikle Tversky ve Kahneman'ın (1974; 1979) çalışmalarının ardından, bireylerin belirsizlik altındaki kararlarını etkileyen davranışsal yönler ele alınmaya başlanmıştır.

Bireysel yatırımcılar; risk, getiri, likidite, işlem hacmi ve diğer birtakım finansal olmayan kriterler açısından, finansal piyasalarda şüphesiz önemli rollere sahiptir. İşlem hacmi de piyasa katılımcılarının borsadaki faaliyetlerine ilişkin karar verme süreçlerinde dikkate aldıkları önemli faktörlerden birisidir. Spekülatif piyasalardaki işlem hacminin rasyonel gerekçelerle gerekçelendirilemeyecek ve standart teorilerin izah edilemeyecek kadar büyük olduğu ortadadır. Gözlenen aşırı işlem hacminin bir açıklaması olarak aşırı güven ön yargısı ileri sürülmüştür. Pozitif yanılısamanın bir türü olan aşırı güven davranışı, birçok krizin ana nedeni olarak görülmesinin de etkisiyle tarih boyunca büyük ilgi gören bir olgu olmuştur

Uluslararası İktisadi ve İdari Bilimler Kongresi'nde sunulan "Aşırı Güven Önyargısı: İşlem Hacmi ile Borsa Devir Hızı Işığında Borsa İstanbul Özelinde Bir Değerlendirme" başlıklı bildirinin, genişletilmiş, geliştirilmiş ve yeniden düzenlenmiş biçimidir.

BANKACILIK SEKTÖRÜNÜN PİYASA YAPISI VE FİNANSAL İSTİKRAR İLİŞKİSİ ÜZERİNE TEORİK BİR İNCELEME⁴

Yusuf Akan

Samet Topal

GİRİŞ

Finans sektörü, ülke ekonomileri ve dünya ekonomisi açısından hayati bir rol oynamaktadır. Finansal sistemde ortaya çıkabilecek olası bir sorun tüm ekonomiye yayılarak büyük bir maliyet oluşturur. Ayrıca, ekonomik serbestleşme ile finansal piyasaların entegre olması ve artan teknoloji kullanımı ile birlikte bir ülkenin finansal sisteminde yaşanan sorun diğer ülkelerin finans sektörlerini ve dolayısıyla ekonomilerini etkilemektedir. Bu nedenle, finansal sistemin sağlıklı işleyişi, gerek ulusal gerekse küresel ölçekte üzerinde durulması gereken bir öneme sahiptir. Özellikle tasarrufların yatırıma yönlendirilmesinde aracılık yapan bankaların işleyişinde görülen bir aksaklık, finansal sistemin ve tüm ekonominin sorun yaşamasına neden olmaktadır. Finansal sisteminin büyük bir kısmını bankaların oluşturduğu bir finansal yapıya sahip olan ülkelerde, bu durum daha da önem kazanmakta ve bankaların sağlıklı bir şekilde işleyişinin sağlanmasının gerekliliği genel kabul görmektedir.

Günümüzde çoğu banka, klasik bankacılık işlemlerinin yanı sıra müşterilerine çok çeşitli finansal ürünü ve hizmeti sağlamaktadır. Bu da ülkeler için bankaların denetlenmesi ve finansal göstergelerinin kontrol edilmesinin daha geniş bir alana yayılmasına neden olmaktadır. Banka temelli piyasa yapısına sahip olan ülkelerde finansal istikrarın sağlanması, büyük oranda bankaların sağlamlığına, yapı-

SÜRDÜRÜLEBİLİRLİK PERSPEKTİFİYLE YEŞİL FİNANS VE YEŞİL TAHVİL

GİRİŞ

Doğal kaynakların kontrolsüz olarak kullanılması sonucunda doğaya salınan karbondioksit miktarının artması, birçok olumsuz durum meydana getirmektedir. Küresel ısınma, deniz suyu sıcaklıklarında yaşanan artış ve buzul erimeleri bu olumsuzluklardan bazılarıdır. Ayrıca işletmeler tarafından doğaya bırakılarak akarsulara karışan fabrika atıkları, deniz ve toprak yapısının bozulmasına yol açmaktadır. Kişisel yaşamdan, işletmelere kadar, doğayı koruma kaygısı bulunmayan insan odaklı tüm faaliyetler, sürekli olarak çevreyi kirletmekte ve insan yaşamını tehdit eden boyutlara ulaşmaktadır (Yılmaz, 2019: 140).

Dünya’da küresel sıcaklık değişimleri incelendiğinde, geçmiş son 170 yıl içerisinde küresel ısınmanın 1,1 derece civarında arttığı belirlenmiştir. Ancak gerçekleştirilen araştırmalar ışığında, doğaya olan tahribatın önüne geçilmediği takdirde, 22. yüzyıla kadar küresel sıcaklık artışının 4 dereceden daha fazla olacağı belirtilmektedir. Sanayileşmenin başlangıcı olarak kabul edilen sanayi devriminden günümüze kadar, dünya nüfusunda meydana gelen artışlar ve çevreye zarar veren yatırımlar sonucunda ortaya çıkan iklim değişikliklerinin ve çevresel anomalilerin, dünyanın ve yaşamın geleceğini tehlikeye sokacağı ifade edilmektedir (Sachs, 2015: 404; Yiğit ve Canöz, 2021: 38).

Sanayi devriminden günümüze kadar, dünya genelinde gerçekleşen sanayileşmenin artması sonucu, çevrenin aşırı kirlenmesi ve doğanın dengesinde meydana gelen bozulmalar, çevreyle ilgili duyarlılığın artmasına ve yaşamın sürdürülebilirliğinin üzerinde durulmasına neden olmuştur. Bu doğrultuda düzenlenen, 21. Birleşmiş Milletler İklim Değişikliği Taraflar Konferansı neticesinde 196 ülke katılımıyla imzalanan Paris Anlaşması kapsamında, dünya sıcaklığında meydana

GİRİŞ

Ekonomik krizler özellikle son yıllarda tüm dünya genelinde karşılaşılan bir kavram olarak gündemi meşgul etmektedir. Genel olarak bakıldığında ülkelerin ekonomik değişkenlerinin krizlerden negatif yönde etkilendiği söylenebilir (Aslantaş ve Korlu, 2020: 113). Son yirmi yılda, dünya finans piyasaları iki küresel krize tanık olmuştur. Birincisi 2008'deki Küresel Finans Krizi, ikincisi ise Covid-19 Pandemisi'nin neden olduğu küresel salgın krizidir. Dünyada yaşanan bu iki kriz sadece insanların günlük yaşamını etkilemekle kalmamış, aynı zamanda finansal piyasaları ve dünya ekonomisinin neredeyse her sektörünü de etkilemiştir. 2008 Finans Krizi ilk önce Amerika Birleşik Devletleri'nde başlamış daha sonra tüm dünyaya yayılmıştır. Küresel ölçekli bir kriz olan 2008 Finans Krizi, 1929 Büyük Buhranından sonra yaşanan en büyük kriz olarak tanımlanmıştır. Bu kriz, 2009'da dünyanın toplam Gayri Safi Yurtiçi Hasıla'sında (GSYİH) %0,6'lık bir düşüğe neden olmuştur. 2009'da dünya çapında GSYİH büyümesi 2007'ye kıyasla %5,8 düşmüştür (Fernandes, 2020).

2020 yılında ortaya çıkan Covid-19 Pandemi Krizi, 2008 Finans Krizi'nden bu yana dünyada ikinci küresel bir krize yol açmıştır. Bu durum tüm OECD (Organisation for Economic Co-operation and Development) ülkelerinde ve çoğu gelişmekte olan ekonomide bir resesyona neden olmuştur. Yeni koronavirüsün

DÜNYADA VE TÜRKİYE'DE SİGORTACILIK SEKTÖRÜNDE FİNANSAL TEKNOLOJİLERİN KULLANIMI ÜZERİNE BİR YAKLAŞIM

GİRİŞ

Ülkemizde sigorta sektörünün son yıllarda ekonomideki gelişmelere paralel olarak değişimler geçirdiği gözlenmektedir. Aslında ekonomik kalkınma olmadan ve ekonomiyi yabancılarla rekabete sokmadan sigorta sektörünün kendi kendine gelişmesi teorik olarak mümkün görülmemektedir. Ülkemizde ve diğer gelişmekte olan ülkeler ile birlikte henüz gelişmemiş ülkelerde sigortacılık sektörü istenilen noktaya gelememiştir. Sigortacılık sektöründe her bireye ve bütçeye göre birçok yeni ürünler geliştirilmesine karşın, prim tahsilâtlarında yaşanan problem, nitelikli eleman sorunları, organizasyon sorunları, üretim kanalları ile birlikte sigorta şirketleri arasındaki sorunlar, sigortalılar arasında sigorta hizmeti bilincinin olmaması, yasal mevzuattaki eksiklikler ve boşluklar sigortacılık sektörünün gelişmemesinin en büyük nedenleridir.

Günümüz teknolojisinde hem gelişmiş hemde gelişmekte olan ülkelerde sigortacılık sektörünün önemli bir ekonomik paya sahip olduğu bilinmektedir. Sigortacılık sektörünün günümüzde finansal teknolojilerin artmasıyla ve ekonomik dengelerin değişmesiyle birlikte sürekli kendini güncellediği görülmektedir. Bu çalışma ile finansal teknolojilerin sigortacılık sektöründeki etkileri anlatılmış ve sektörün gelecekteki yıllarda pazar paylarının nasıl olacağı tartışılmıştır.

İŞSİZLİK VE İŞ GÜCÜ ÜZERİNE BİR DEĞERLENDİRME: ARDAHAN İLİ ÖRNEĞİ

Aysun Hazel Özaydın

GİRİŞ

Çalışmak insanlığın var olduğundan beri günümüze kadar ki sürede yaşamını devam ettirmek için vazgeçilmez bir durumdur. Bu çağda yaşayan insanlar da teknolojik gelişmelere ayak uydurarak çalışmalarını sürdürmüşlerdir. Günümüzde iş sektörlerinin çeşitlenmesine ve çoğalmasına rağmen, emek arzının fazlalığı gibi nedenlerden ötürü işsizlik sorunu yaşanmaktadır. Bu sorun bireyde ve ailesinde geçim sıkıntısı ve psikolojik sıkıntılara neden olmaktadır. İstihdam sıkıntısı ülkemizde ve bölgesel anlamda da varlığını sürdürmektedir. Emek arzı fazlalığını etkileyen etmenler; toplam nüfus, çalışma çağındaki nüfus, istihdamın dağılımından kaynaklı oluşan göçler, nüfusun yaş ve cinsiyet özellikleri gibi faktörler etken durumdayken, iş gücü niteliği ve verimi gibi iş gücünü geliştirecek eğitim sistemleri de etkili olmaktadır.

Bu çalışmada işsizlik kavramı ile türleri genel olarak açıklanmış ve Ardahan ili kapsamında açık işsizlik verileri kullanılarak inceleme yapılmıştır. Yapılan inceleme kapsamında Ardahan ili işsizlik oranı, işsiz bireylerin yaş grubu, cinsiyetleri ve eğitim seviyeleri şeklinde ayrımlarla incelemeler yapıp bu işsizlerin yüzde kaçının işsizlik yardımı aldığı yıl bazında tespit edilmiştir. Bu bağlamda işsizlik sorununun çözümüne ilişkin olarak öneriler sunulmuştur.

1. İŞSİZLİK KAVRAMI

Günümüzde yüzlerce insan, çalışma istek ve arzusunda olsa da işsiz kalabilmektedir. Bir ülke nüfusunun çalışma istek ve arzusunda olan çalışmaya hazır olan kişiler ile işe girip çalışan kesim anlamına gelen istihdam seviyesi arasındaki fark, işsizlik şeklinde tanımlanmaktadır.

YEŞİL FİNANS VE YEŞİL BANKACILIK BAĞLAMINDA TÜRKİYE

Selçuk Bakan

GİRİŞ

Günümüzde insanlığın en büyük sorunlarının çözümü, teknolojik, sosyopolitik, kültürel, finansal girişim ve mekanizmaların bir arada geliştirilmesi, benimsenmesi ve uygulanmasında yatmaktadır.

Çevre kirliliği ve yenilenemeyen kaynakların tükenmesi, biyolojik çeşitliliği, insan sağlığını ve ekonominin daha da gelişmesini tehlikeye atan uluslararası, ulusal, bölgesel ve yerel düzeylerde önemli sorunlardır. İklim değişikliğinin ekonomik ve mali etkileri bankaları ve finans kurumlarını gelecekte önemli kayıplarla karşılaştırabilir. Çevresel bozulma küresel olarak önemli bir ikilem hâline gelmektedir. İklim değişikliği sürdürülebilir kalkınma için bir tehdit hâline gelmiştir. Şirketlerin yoğun ekonomik faaliyetleri nedeniyle doğal kaynakların aşırı tüketim eğiliminin artması, sera gazı emisyonlarında önemli bir artışa yol açarak küresel ısınmaya ve nihayetinde küresel iklim değişikliğine neden olmuştur. Bu sorunlar, bilim camiasını ekonomik kalkınma ile bu kalkınmanın iklim değişikliği üzerindeki etkisi arasında bir uzlaşma bulma ikilemiyle karşı karşıya bırakmaktadır (Ciobu ve Sajin, 2022).

Sanayi devriminin başlangıcından bu yana, finans sektörü insani büyümenin güçlü bir dayanağı olmuştur. Küresel finans sektörünün birincil rolü, küresel tasarrufların verimli bir şekilde kullanılmasıdır. Yatırımların doğru kullanımı insanların yaşam kalitesinin artmasını sağlamaktadır. Ancak, finansal sistemin çökmesi nedeniyle insanlar tasarruflarını gayrimenkul balonlarına ve insan kaynaklı iklim değişikliğinin şiddetlenmesine sebep olanlar da dâhil olmak üzere çevreye zarar veren projelere yatırmışlardır (Meo ve Karim, 2022). Finans, antropojenik (insanın çevre üzerindeki etkisi) konusunda çok önemli bir rol oynamış ancak çevresel

BANKACILIKTA YENİ BİR YOL AYRIMI: AÇIK BANKACILIK UYGULAMASI

Bahattin Erden

Melik Yolci

GİRİŞ

Finans sektöründe yaşanan dijital dönüşümle birlikte bankalar, müşterilerin değişen ve yenilenen ihtiyaçları ile karşı karşıya kalmaktadır. Bankalar, müşterilerinin bu değişken ve yenilikçi ihtiyaçlarına en hızlı ve en uygun teklifi yapmak zorundadır. Değişen teknolojik gelişmelerle (blokzincir, büyük veri, nesnelerin interneti, yapay zekâ, makine öğrenmesi vb.) beraber kullanıcılara birçok alternatif arasından seçim yapma şansı doğmuştur. Teknolojik gelişmelere bağlı olarak ortaya çıkan dijital finansal hizmet sağlayıcılar, müşterilerine daha iyi bir ödeme deneyimi, daha geniş bir hizmet alımı ve daha fazla seçenek arasından en iyi seçeneğe ulaşma imkânı sağlamaya çalışmaktadır.

Bankacılık alanındaki finansal teknolojik gelişmelerin en önde gelen araçlarından biri de açık bankacılıktır. Açık bankacılıkla beraber müşteriler, hesaplarına banka dışından ulaşma olanağı bulmalarının yanısıra birçok bankada yer alan farklı banka hesaplarına tek bir arayüzle tek bir noktadan erişim hakkına sahip olurlar.

Geleneksel bankacılıkta müşteriler, bankadaki danışmanları ile yüz yüze görüşerek para transferlerini, kredi işlemlerini ve diğer tüm bankacılık faaliyetlerini gerçekleştirirler. Bankacılıkta dijital kanalları kullanmak istemeyen müşteriler için hâlâ daha yüz yüze bankacılık hizmeti verilmekle beraber günümüzde müşteriler gitgide daha az fiziksel bankacılık hizmetinden yararlanmayı tercih etmektedirler. Finansal gelişmelere bağlı olarak tüm bankacılık hizmetleri çevrim içi olarak verilebilmektedir. Bankalar bir uygulama arayüz (API) aracılığıyla müşteri bilgilerini, bankacılık ürün ve hizmetlerini müşterilerine ulaştırırlar. Bu arayüzler genellikle fintekler gibi hizmet sağlayıcılarından elde edilirler (Schneider, 2023).

CAMELS DERECELENDİRME MODELİ İLE KIRGIZ BANKALARININ FİNANSAL PERFORMANS TAHMİNİ

Mahmut Erdoğan

GİRİŞ

Finansal sektör kompozisyonu küresel olarak ele alındığında, Anglo-Saxon ülkelerde finansal varlıkların büyük oranda sermaye piyasalarında bulunduğu, yükselen piyasalarda ise bankacılık sektörünün dominant bir yapıda olduğu görülmektedir. Finansal istikrarın sürdürülebilirliği için güçlü bir bankacılık yapısı sistem içerisinde başrole sahiptir. Banka endüstrisi, finans sektörünün önemli bir bileşenidir ve etkin şekilde çalışması tüm ekonomi açısından büyük önem taşımaktadır. Ayrıca, tasarruf hareketliliği, risk çeşitlendirme, kaynak tahsisi, yöneticilerin izlenmesi ve kurumsal yönetim bu endüstrinin ana fonksiyonları olarak sayılabilir.

Finansal sistemin en önemli aktörlerinden biri olan bankacılık sektörü, finansal liberalizasyonun ardından ortaya çıkan finansal yenilikler sebebiyle daha da karmaşık bir hâl almış ve bazı dönemlerde büyük krizler yaşamıştır. Finans ve reel sektörlerin her ikisinin de ciddi maliyetlere katlandığı bu krizlerin ve banka iflaslarının önlenmesi amacıyla gözetim ve denetim sistemleri geliştirilmiştir. Bankacılık sektöründeki ters seçim ve ahlaki riskin azaltılması için, bankaları kimlerin ve nasıl yönettiğine yönelik incelemeleri kapsayan banka denetimi önemli bir yöntemdir. Bankacılık sektörünün güçlü bir yapıya sahip ve denetlenebilir olması ekonomide sermaye birikiminin olumlu yönde etkilenmesine zemin oluşturmaktadır.

Ülkeler arasında banka sektörünün denetim ve gözetim yapıları farklılıklara sahip olsa da uygulamada yerinde denetim ve uzaktan gözetim biçiminde iki sistemin varlığı bilinmektedir. Banka üst yönetiminin yetkilendirdiği denet-

FINANSAL İNOVASYONUN BİR BOYUTU OLARAK DİJİTAL BANKACILIĞIN GELİŞİMİ

Eda Ayvacık

Selçuk Yalçın

GİRİŞ

Bilgi çağı olarak adlandırılan yaşadığımız dönemde dijitalleşmenin hem bireyleri hem de kurumları etkisi altına aldığı kuşku götürmez bir gerçektir. Bu durum bireysel olarak her yaş gurubundaki bireyleri farklı şekilde etkilediği gibi kurumları ve sektörleri de bireylere benzer şekilde etkisi altına almıştır. Meydana gelen değişiklikler bazı sektörleri öncelikli ve hızla etkisi altına alsada zamanla genele yayılmıştır. Dijital dönüşüm sektörlerin özellikle iş yapış süreçlerini etkilemiştir. Otomasyon ve yapay zekâya dayalı sistemler gerçek hayatta yapılmakta olan işlemlerin sanal ortamlara taşınmasını sağlamıştır. Bu hızlı değişim ve dönüşümden etkilenen sektörlerin başında ise hiç şüphesiz bankacılık gelmektedir. Finansal teknolojilerin inovatif biçimde ilerlemesi bu etkilenmenin derecesini artırmış dijital bankacılık veya e-bankacılık diye adlandırılan yepyeni kavramların literatüre girmesini sağlamıştır. Bankacılık sektörü, özellikle teknolojik inovasyonları iş süreçlerine hızlıca adapte etme açısından diğer sektörlerle nazaran ön sıralardadır. Ayrıca mevcut gelişmelerden ötürü sektörde rekabet artmış hatta bu rekabete sektörde hizmet veren diğer finansal kurumlarda dâhil olmuştur. Bu gelişmelerden dolayı bankalar geleneksel bankacılık anlayışında yeniliğe gitmek zorunda kalmış, dijital teknolojilerin sağladığı imkânlar doğrultusunda hizmet şartlarında müşterilerin lehine değişikliklere gitmişlerdir. Yapılan bu değişiklikler ise müşteriler nezdinde olumlu karşılınıp müspet geri dönüşler alınmasını sağlamıştır. Bu ise hem bankaları hem de diğer finansal kuruluşları dijital bankacılık hizmetlerini daha da çok geliştirmeye sevk etmiştir. Bu yenilikler her iki tarafında lehine dönüşümler yaratmaktadır. Bankalar yeni teknolojileri bünyelerine adapte etmek için birtakım maliyetlere katlanmak zorunda kalsalar da en nihayetinde

ASYA'DA YÜKSELEN İKİ GÜÇ: ÇİN VE HİNDİSTAN'IN KALKINMA SÜREÇLERİNİN KARŞILAŞTIRILMASI⁶

Atila Er

Yakup Koray Duman

GİRİŞ

Kalkınma süreci basit tanımı ile mevcut durumdan daha ileri bir duruma gelinmesidir. Her ülkenin kalkınma süreci birbirinden farklılık göstermektedir. Bir kalkınma modeli bir devletin gelişmesine fayda sağlarken, aynı model başka bir devletin gelişmesine olumlu bir katkı sağlamayabilir.

Günümüzde kalkınma konusunda yakaladıkları ivme ve geldikleri süreçte uyguladıkları kalkınma modelleri ile dikkatleri üzerlerine toplayan ülkelerin başında Çin ve Hindistan gelmektedir. Öyle ki pek çok kaynakta bu iki ülkeden “yükselen güçler” şeklinde sıklıkla bahsedilmektedir. Yapılan araştırmalara bakıldığında bu iki ülkenin birbirlerinden farklı kalkınma yaklaşımlarına sahip oldukları fakat ekonomik kalkınma açısından ciddi bir seviyeye geldikleri görülmektedir. Kısaca iki devletin temel olarak kalkınma yaklaşımlarına bakıldığında Hindistan'ın ekonomik kalkınmasında devletin belirleyici rolünün daha kısıtlı olduğu ve Hindistan'da özel sektör yatırımlarına daha fazla ağırlık verildiği görülmektedir. Çin'de ise devletin denetiminde bir piyasa ekonomisi hâkim olmakla beraber, devletin bilinçli yol göstericiliği, tasarruf politikaları ve teşvik politikaları sayesinde teknolojik alandaki yatırımlara ağırlık verilerek gelişme kaydedilmiştir denilebilir.

6 Bu çalışma, Akdeniz Üniversitesi Sosyal Bilimler Enstitüsü İktisat Ana Bilim Dalı'nda, Atila ER tarafından hazırlanan ve 2018 yılında kabul edilen “Kalkınma süreçlerine farklı yaklaşımlar: Çin ve Hindistan deneyimlerinin karşılaştırmalı analizi” konulu yüksek lisans tezinden türetilmiştir.

gazlar içinde karbon dioksit ve metan özel bir yer tutmaktadır. Karbon dioksitin sera gazlarının yaklaşık %80ini oluşturduğu gerçeğinden hareketle ise hava kirliliğinin, yol açtığı küresel ısınma ve iklim değişikliğinin yıkıcı etkilerinin azaltılması için karbon dioksit başta olmak üzere sera gazı emisyonlarını azaltmak birincil strateji olarak karşımıza çıkmaktadır. Bu gazların ve özellikle karbon dioksitin en çok kömür, petrol gibi fosil yakıtların üretimi/tüketimi noktasında açığa çıktığı bilindiği için de başta bu yakıt türlerinin kullanımının durdurulması ve atmosferdeki karbon dioksit miktarını azaltacak tedbirler alınması gündeme gelmektedir.

Karbon ayak izi, karbon nötr ve net sıfır emisyon gibi kavramlarla hayatımıza giren bu tedbirler uluslararası sözleşme, protokol ve belgeler aracılığıyla küresel bir stratejiye dönüşmektedir. Bireylerin, kurum/kuruluşların ve ülkelerin karbon dioksit emisyon oranlarının düşürülmesini hedefleyen bu tedbirlerin temelinde ise rüzgâr ve güneş gibi yenilenebilir ve temiz enerji kaynaklarının kullanılması, yeşil alanların yani karbon yutaklarının artırılması, araç kullanımının azaltılması gibi pek çok husus yer almaktadır. Birçok ülkenin de uzun vadede karbon nötr hâle gelebilmek ve net sıfır emisyon hedefine ulaşabilmek için stratejiler geliştirdikleri bilinmekte, top yekün bir mücadeleyi gerektiren bu süreçte en çok karbon salınımının gerçekleştiği alanlar olan kentlere ve kent yönetimlerine de büyük görevler düşmektedir.

İKLİMSEL VE ÇEVRESEL NEDENLERLE GÖÇE ZORLANANLAR: İKLİM GÖÇMENLERİ

Hayriye Sağır¹

Süleyman Koç²

GİRİŞ

İnsan-çevre dengesinin bozulmasının küresel yansıması olarak iklim değişikliği sorunsalı, tüm dünyayı etkisi altına almaya başlamıştır. Farklı coğrafyalarda değişik etkilerle ortaya çıkan sorunların nihai aşaması ise insanların yaşam ortamlarını kaybetmeleridir. Buzulların erimesi sonucu sular altında kalmaya başlayan ve ilerleyen dönemlerde kalması muhtemel yerleşimlerde yaşayanlar için göç kaçınılmaz olacaktır. Bununla birlikte yaşam alanlarındaki istihdam imkânları kaybolan ve iklim değişikliğinden zarar gören insanlar için göçün zorunluluk hâline gelmesiyle, küresel toplum ilerleyen yıllarda ciddi bir göç dalgası ile karşı karşıya kalacaktır.

İklim göçmenleri kavramı, iklimsel ve çevresel nedenlerle buldukları yerleşim alanından ayrılan insan topluluklarını ifade etmektedir. Göçü ortaya çıkaran sebeplerin başında ise daha iyi yaşam standardına ulaşma arzusu gelmektedir. Göçmenlerin yaşam alanları ya yok olmakta ya da yaşamlarını devam ettirme olasılıkları buldukları mekânda zorlaşmaktadır. Böyle bir durum ise göçü kaçınılmaz kılacaktır. Hâlihazırda iklim değişikliğinin nedenleri ve doğal çevre üzerindeki etkileri hakkında küresel aktörlerin çekimsel bir anlayışa sahip olması ve sonucunda net politikalar üretilememesi nedeniyle, artan sayıdaki ik-

SONUÇ

Göç hareketinin iklimsel nedenlerden kaynaklanması iklim mültecileri olgusunu gündeme getirmiştir. Özellikle yaşam alanının yok olması, yaşanan mekândaki düşük, yetersiz yaşam standartları, geçim imkânlarının ortadan kalkması gibi nedenler zorunlu bir göç süreci ortaya çıkarmaktadır. Uluslararası hukuk antropojenik ve çevresel faktörlerden kaynaklanan sorunlara yönelik düzenlemelere yer vermemektedir. Bununla birlikte iklim değişikliğinin etkileri sadece zorunlu göçe maruz kalanlar açısından değil, bu kişilere ev sahipliği yapacak ülkelerdeki insanlara da yansımaktadır.

Doğal ve iklim değişikliklerine bağlı felaketlerin artarak devam ettiği günümüzde iklim göçmenlerinin sayısının da artması beklenmektedir. Uluslararası alanda kavramsal çerçeve oluşturulamadığı için, iklim mültecileri noktasında ülkelerin kendi bünyelerinde buldukları çözüm önerileri sürece fazla katkı sağlamamaktadır. Bu nedenle ilerleyen yıllarda iklim göçmenlerine yönelik sorun alanları daha da karmaşıklaşmadan, uluslararası toplum iklim göçmenlerinin statülerine ilişkin gerekli düzenlemeleri yapmalıdır. Mülteciler, 1951 tarihli Mültecilerin Statüsüne İlişkin Cenevre Sözleşmesi kapsamında statü hakkı elde etmektedir. Oysaki sözleşme şartlarının hazırlandığı yıllarda ve 1967 Protokolü ile revize edildiği dönemde iklim değişikliği henüz uluslararası hukuk kapsamında gündeme gelen bir sorun alanı değildi. Bu nedenle günümüz şartları doğrultusunda sözleşmede bir düzenleme yapılması, önemli bir gereklilik olarak ortaya çıkmaktadır. İklimsel nedenlere bağlı zorunlu göç eden bireylere yönelik mülteci hukuku kapsamında kavramsal çerçevenin çizilmesi tanım kapsamına alınması, sorunun çözümü noktasındaki en önemli adım olacaktır, çünkü göçmenler günümüzde sadece buzdağının görünen yüzünü yansıtmaktadırlar.

YENİ KENTSEL KİMLİKLER: MARKA KENT, AKILLI KENT, YAVAŞ KENT VE SÜNGER KENT

Emrah Atar¹

Birlikte yaşama duygusu, insanın var olduğu günden beri, insanın temel iç güdülerinden birisi olmuştur. Bu doğrultuda tarihin her evresinde insanların bazen benzer hedefler bazen ise farklı amaçlar doğrultusunda oluşturdukları ve tarihin her evresinde kültürel farklılıklar ile belirli bir değişim ve dönüşüm geçiren kentler oluşturulmuştur. Kent, tüm vatandaşları için sosyal, politik, idari ve ekonomik alanı olan bir yaşam alanıdır (Akkoyunlu, 2007:23). Sanayi devrimi ile beraber artan endüstrileşme hareketi de kentleşme hareketinin daha farklı boyutlara ulaşmasına zemin hazırlamıştır. Aynı şekilde, 1. ve 2. Dünya Savaşlarından sonra artan göç olayları endüstrileşmeyle paralel farklı hareketlerin oluşmasına neden olmuştur. Bütün bunların neticesinde, ekonomik, politik, demografik, sosyal ve kültürel önemlerine göre farklı kentler karşımıza çıkmıştır. Bundan dolayı kent tanımlaması yapılırken farklı ölçütler kullanılmakla beraber farklı bilim alanları tarafından da çeşitli boyutları ile ele alınmaktadır. Günümüzde kentler genel olarak; nüfus ölçütüne göre, toplumbilimi ölçütü açısından ve ekonomik faaliyet ölçütüne göre sınıflandırılabilir.

Nüfus ölçütüne göre bir değerlendirme yapacak olursak; En az 50.000 nüfuslu yüksek yoğunluklu şehirlerde yaşayan nüfus, özellikle son yarım asırda iki katından fazla artarak 1975'te 1,5 milyardan 2015'te 3,5 milyara ulaşmıştır. Böylece dünya nüfusunun neredeyse yarısı (%48) şehirlerde, dörtte biri kırsal alanlarda (%24) ve geri kalan insanlar kasabalarda veya yarı yoğun alanlarda (%28) yaşamlarını devam ettirmektedirler (OECD, 2020). Küresel olarak incelendiği zaman ise kentleşmenin yaygınlaştığını, kasabaların zaman içerisinde şehirlere dönüştüğünü ve banliyölerin genişleyen şehirler tarafından emildiğini

TOPLUMSAL HAREKETLER VE SİYASET: BİR TEZAHÜR ALANI OLARAK KENT

Melih Coşgun¹

GİRİŞ

Toplumsal hareketler kavramı ismiyle müsemma bir biçimde sahip olduğu dinamizm ve anlamlandırma çabaları esnasında merkeze yerleştirilen olgunun farklılaşması nedeniyle üzerinde mutabakata varılmış, herkes tarafından kabul gören tek bir tanımı bulunmamaktadır. Kavramın en önemli düşünürleri arasında yer alan Tilly (2008) toplumsal hareketleri, yalın bir ifadeyle, halkın organize bir biçimde siyasi manada harekete geçişi olarak tanımlamaktadır. Özellikle 19. yüzyıla kadar cemaat gruplarının yönlendirdiği görece geleneksel zeminde ilerleyen toplumsal hareketler sonraları kalıcı kazanımları ve yeni hakları beraberinde getiren modern toplumsal hareketlere dönüşmüştür. Geleneksel toplumsal yapıda kendisine uygun genişleme alanını yeteri kadar bulamayan toplumsal hareketler bu imkânı kentlerle birlikte elde etmiştir. Modern zamanlarla birlikte kentler daha önceleri sahip olmadığı birtakım özelliklere haiz olmuştur. Modern kentler; tarım ve sanayi ürünlerinin dağıtıldığı bir ekonomik bir merkez, uzmanlaşmanın hızlandığı, toplumsal açıdan dikey/yatay geçişlerin kolaylaştığı, geleneksel aile yapısının değiştiği, hukuk kurallarının ve kurumlarının belirginleştiği ve heterojenleşmiş bir toplumsal yapı hâli almıştır (Kaya, 2003). Kentin sahip olduğu bu nitelikler eski ve yeni toplumsal hareketlerin de merkezinde yer alan ayrışmayı derinleştirmiştir. Bu ayrışma toplumsal hareketlerin eskiliğine veya yeniliğine dair farklı yaklaşımları da beraberinde getirmiştir. Bu yaklaşımlardan ilki toplumsal hareketlerin geleneksel ve modern zamanlarda pek de farklı olmadığını iddia etmektedir. Özü itibarıyla toplumsal hareketler iki temel benzerlik içermektedir. Bunlardan ilki tek tipleştirmeye karşı tavrının olması ve diğeri önceleri işçi sınıfı

dönemlerde kullanılan yeni toplumsal hareketler bahsi geçen yüzyıla ait temel yöntemler olmakla birlikte aralarındaki ilişki hasebiyle net biçimde birbirinden ayırıştırılamamaktadır. Yeni toplumsal hareketlerin sahip olduğu merkezlessiz, çoğulcu, iktidar talep etmeyen ve demokrasinin demokratikleşmesine yönelik tavır onun, kendine münhasır değerleri olarak görülmektedir. Bu bağlam aynı zamanda çalışmanın temel iddiası olan yeni toplumsal hareketlerin küçük partilerin ortaya çıkışının zemini olduğu düşüncesini argümanıdır. Benzer bir biçimde küçük partiler de iktidarı ele geçirme arzusu olmadan, katı ve hiyerarşik parti örgütlenmesini reddeden, tek bir ideolojik tavra karşı çıkan ve seçimlerden seçimlere değil siyasal karar alma süreçlerine sık sık katılım talep etmektedirler.

NEOLİBERAL KENTLEŞME SÜRECİNDE TÜRKİYE'DE KENTSEL PARADOKSLAR

Handan Yıldırım¹

GİRİŞ

Neoliberalizmin yönetim pratiklerindeki hegemonyası göz önüne alındığında kentlerin yaşadığı önemli bir zorluk, kentin küresel odaklı ekonomik işlevlerinin yerel olarak kök salmış toplum ve kültürle eklemelenmesidir (Castells, 1993; Parnell ve Robinson, 2012). Neoliberalizm, sermayenin çıkarlarına üstünlük veren politika gündemlerini teşvik ederken; siyasi iktidarın kalkınma sürecindeki etkisini azaltmaz (Davies, 2014). Bu çerçevede yönetim anlayışı, girişimciliğe kaymakta ve kentsel gelişme büyük ölçüde kamu ve özel sektör arasındaki ortaklıklara ve sermaye birikimi için kentsel metalaştırmaya odaklanmaktadır (Harvey, 1989).

Bu kalkınma ideolojisi, politika yapıcılar tarafından, özellikle kentsel bağlamda, yeniden geliştirme projelerinin sembolik temsili olarak uygulanmaktadır (Mosciaro ve Pereira, 2019). Birçok paradoksuna rağmen neoliberalizm, Türkiye'de 1980'li yıllardan itibaren hükümetler tarafından bir kalkınma yaklaşımı olarak benimsenmekte ve varsayılan faydaları, yeni kentsel kalkınma projelerini teşvik etmek ve uygulamak için kullanılmaktadır. Bu tür projeler, görünüşte, sosyoekonomik zorlukları çok boyutlu olarak ele almayı amaçlamaktadır. Projelerin savunucuları, ilgili projelerin kentsel refah için gerekli olduğu ve damlama² yo-

2 Damlama Teorisi (The Trickle-Down Theory), vergi indirimlerinden, sermaye kazançlarından, temettülerden ve hatta şirketler ve varlıklı bireyler üzerindeki daha gevşek düzenlemelerden elde edilen faydaların, sonunda orta ve düşük gelirli bireylere fayda sağlamak için aşağıya akacağını varsayar. Kesintilerden elde edilen ekstra servet, zenginleri ekonomik büyümeyi artıran işletmelere yatırım yapmaya veya genişletmeye yönlendirir. Ancak, çoğu zaman durum böyle

kaynaklarından sistematik olarak mahrum bırakıldığı yapısal ve kurumsal itme veya engelleme süreçleri biçimindeki sosyal dışlanma (Fischer, 2008) yaşanmaktadır. İstanbul'da bu, şehir genelinde mevcut yaygın sosyo-mekânsal eşitsizliği, yoksunluğu derinleştirmekte ve böylece kent yoksullarının zaten güvencesiz yaşam koşullarını daha da kötüleştirmektedir.

Devletin kentsel modernite amaçları arzu edilirken, süreçlere ve istenmeyen sonuçlara çok dikkat etmek esastır. Bu çalışmada tartışılan neoliberalizmin birçok paradoksuna dikkat etmek, normalde kalkınmadan faydalanması gereken, zaten marjinalleşmiş düşük gelirli toplulukları daha fazla yoksullaştırmayacak şekilde kentsel dönüşümü sağlama yollarını teşvik etmek için daha iyi bir fırsat sağlayabilir. Bu aynı zamanda bir yanda siyasi iktidarın ekonomik büyüme ve kentsel modernite özlemleri ile diğer yanda toplulukların sosyoekonomik özlemleri arasındaki çelişkileri azaltmaya da yardımcı olabilir. İstanbul örneğinde, kalkınmanın sosyal yönlerinin ekonomik hususlar kadar kritik olduğunu anlamak önemlidir.

TARIM VE GIDA GÜVENLİĞİ KAPSAMINDA TÜRK TARIM POLİTİKALARININ DEĞERLENDİRİLMESİ

Hayriye Sağır¹

Gizem Altay²

GİRİŞ

Gıda ve tarım güvenliği, küresel seviyede yaşanan birçok neden ve sorunun bir araya gelmesi nedeni ile risk altındadır. Temel ihtiyaçlar hiyerarşisinde en önde gelen beslenme ihtiyacı ancak gıda güvenliği esasının tesis edilebilmesiyle mümkün hâle gelecektir. Gıda güvenliği tesis edilemediğinde salgın hastalık, felaket, kıtlık, kuraklık ve doğal afetlerin insan yaşamını normalden fazla etkilediği görülmektedir. Buna ek, olarak gıda güvenliğinin sağlanamaması nedeni ortaya çıkan olumsuz ve yıkıcı sonuçlar, pozitif ayrımcılık görmesi gereken kırılgan grupları (kadın, çocuk ve yaşlıları) daha fazla etkilemektedir.

Maslow'un ihtiyaçlar hiyerarşisinde ilk sırada yer alan beslenme ihtiyacının karşılanması insan yaşamının temel vazgeçilmezleri arasındadır. Gıdaların, insanların yaşamındaki vazgeçilmezliğine ve ekonomik açıdan önemine bakıldığında gıda ve tarım güvenliği konusu, kamu otoriteleri ve prosedürleri bakımından ilk sırada yer almaktadır. Gıda ve tarım güvenliğinin ilk sıralarda yer almasının en önemli nedeni ise gıda yoksunluğunun ulusal ve küresel çapta çatışmaya yol açma potansiyelidir. Dolayısıyla gıda ve tarım güvenliği; mevcut beslenme problemlerine çözüm getirmek ve olağanüstü durumlarda meydana gelen yıkıcı

gulanmaya başlanmıştır. İlerleme Raporları, Katılım Ortaklık Belgesi ve Ulusal Programlar vasıtasıyla da gıda güvenliği konusu gündeme taşınarak ortak bir eğilim ortaya çıkartılmaktadır. Tarım güvenliği açısından, gıda mevzuatında çeşitli değişiklik ve düzenlemeler yapılarak gıda güvenliği alanı hukuki bir altyapıya kavuşturulmaya çalışılmaktadır. Gıda ve tarım güvenliğine ilişkin küresel aktörlerle de aktif bir şekilde çalışmalarda bulunmaktadır.

İncelenen literatür sonucunda, Türkiye’de tesis edilmesi amaçlanan gıda güvenliğinin; temelindeki amaçları, hedefleri, politika ve strateji çerçevelerini ortaya çıkartmaktadır. Temellerinde benzer konular etrafında şekillenen bu çalışmaların, birçok noktada da birbirini tekrarladıkları görülmektedir. Dolayısıyla bu açıdan Türkiye’nin gıda güvenliği konusu bakımından geçmişten günümüze gelen altyapısının yetersizliği ve yapılan düzenlemelerin AB eksenli olmasında yattığı düşünülmektedir. Ancak Türkiye, gelişmekte olan ülkeler arasında olup küresel sahada kendisini kanıtlamaya çalışmaktadır. Gelecek zaman içerisinde gıda güvenliği alanında yaşanan aksaklık ve eksikliklerin giderilmesi için tedbirler alınarak, sürdürülebilir bir temelde, gıda güvenliğinin temelden tesis edilmesine ilişkin düzenlemelerin yapılması gerekmektedir. Her ne kadar yetersizlikten bahsedilse de iyileştirme ve ilerleme çalışmalarıyla olumlu yönde bir çaba gösterildiği göz ardı edilmemelidir. Gösterilen çabaların karşılığının alınması ve hedeflerin amaçlanan doğrultuda şekillenmesi isteniyor ise bunun için gerekli olan idari ve yasal düzenlemelerin aksatılmadan yapılarak hukuki altyapısının oturtulması büyük önem arz etmektedir. Bilhassa önemi oldukça aşikar olan gıda ve tarım güvenliğiyle ilgili Türk Gıda Mevzuatı’ndaki düzenlemelerin, demografik şartlar ve mevcut sisteminin temel dinamikleri ışığında yeniden incelenmesi gerekmektedir.

TÜRKİYE'DE KENTSEL YOKSULLUKLA MÜCADELE STRATEJİSİ OLARAK SOSYAL BELEDİYECİLİK

Ersin Eraslan¹

Kamil Hakan Derin²

GİRİŞ

Tarihsel süreç içerisinde kentlerin kontrolsüz bir şekilde aşırı derecede büyümesi kente özgü değişik sorun alanlarının ortaya çıkmasına neden olmuştur. Başlıca sorun alanlarından bir tanesi de kentsel yoksulluk meselesidir. Yoksulluğun mekânsal bir kimliğe büründüğü kentsel yoksulluk meselesi esasen çok boyutlu yoksulluk türlerinden bir tanesi oluşturmakta ve karmaşık bir olguyu ifade etmektedir.

Kentsel yoksulluk; kentsel bölgede yaşayan nüfusun bir kısmının eğitim, sağlık ve ulaşım gibi temel kamusal hizmetlerden mahrum kalmasının yanı sıra insan onuruna yakışır ve yaşarır bir asgari yaşam standartından da geride kalanların durumunu ifade etmek için kullanılan sosyal dışlanmışlık ve eşitsizlikler temelinde oldukça grift bir yapı sergileyen yoksulluk türlerinden bir tanesidir. Diğer kentlilerle aralarında ciddi kopukluklar ve eşitsizlikler olan kent yoksulları sosyal, siyasi, ekonomik ve hukuki açıdan güvencesiz bir ortamda yaşamalarını devam ettirmektedir. Bu durum onları sosyal ve ekonomik hayatın dışına itmekte ve marjinalleşmelerine neden olmaktadır.

yılı kanunların revize edilmesi gerekmektedir. Söz konusu değişiklik dâhilinde sosyal yardımların etkin denetim temellinde yardımseverlik ve (istisnai olarak) kayırmacılık tabanından hak temelli yaklaşım anlayışına geçişinin sağlanması hayati bir önem taşımaktadır. Bununla birlikte uygulanacak olan sosyal yardımların sosyal doku çalışmalarının nihayetinde ortaya çıkacak veriler ışığında planlı bir şekilde yürütülmesi kritik niteliktedir. Öte yandan sürdürülebilirlik açısından sosyal yardımlar yerine gelir dağılımındaki adaletsizliği azaltıcı uygulamalara yer verilmesi gerekmektedir. Bu çerçevede Türkiye’de bölgelerarası eşitsizliğin keskinliği dikkate alınarak ilçe bazında bir ayırım dâhilinde yatırım teşviklerinin kademeli bir biçimde verilmesi, beşeri sermayenin temel bileşenleri olan eğitim ve sağlık hizmetlerinde geri planda kalmış bölgelere önceliklerin tanınması gerekmektedir. Son olarak kentsel yoksullukla sebep sonuç ilişkisi içerisinde olan kırsal kalkınmanın desteklenmesi kentsel yoksullukla mücadelede önemli bir alan kazanımı sağlayacaktır.

GİRİŞ

Devlet, kamu hizmetlerinin sürdürülmesi ve yönetilmesi açısından siyasal ve toplumsal olduğu kadar ekonomik özelliği ile de var olan örgütlenme biçimidir. Kamu yönetimi, bu özelliği ile de devlet içerisinde önemli bir rol oynamaktadır. Kamusal gereksinimlerin de karşılanmasında üstlenmiş olduğu roller kapsamında bir örgütlenme biçimi olarak devlet, merkezî ve yerel yönetimlerden oluşmaktadır. Bununla beraber özellikle küreselleşme ile yerel yönetimin rolü daha da artmaktadır. Sanayileşme süreci sonucu kırsal kesimden kentlere doğru oluşan yoğun göç hareketleri, kent nüfusunu arttırmış, bu sayede yerel yönetimler daha da önem kazanmıştır. Sanayi devrimi beraberinde getirmiş olduğu yoğun göç hareketleri, kentlerin sadece demografik olarak ele alınmaması gerektiğini ortaya çıkarmış; işsizlik, yoksulluk, sağlık, barınma, beslenme, ulaşım gibi sorunlarla mücadele etmeyi ve bu yönde politikaların oluşmasını da gerekli kılmıştır. İşçi sınıfını ortaya çıkaran bu göç hareketi ile işçiler, sanayi merkezlerine geldiklerinde ilk etapta sorun yaşamasalar bile emek arzının emek talebinden fazla olması nedeniyle “işsizlik” ile karşı karşıya kalmışlardır (Koca,2020:4535). Türkiye’de işsizlik, sanayileşmenin yetersiz kalması kırsal kesimlerden kentlere göçün artması gibi yapısal sorunlardan kaynaklanabilmektedir (Ay, 2012:326). Yerel yönetimlerin Merkezî yönetimin yükünü hafifleterek kamu hizmetlerinin

çözümünde etkin rol oynama açısından yerel paydaşların etkinliğinin ne denli büyük olduğunu gösterecektir.

YEREL YÖNETİMLERDE E-DÖNÜŞÜM

Seyida Erkek¹

GİRİŞ

Emek ve sermayenin ulus sınırlarının ötesine geçmesi ile bilgi teknolojilerinin gelişimine yol açan küreselleşme kentleri kaçınılmaz bir değişim sürecine sokmuştur. Dünya genelinde tüm kentler, geleceğe hazırlanmak ve kentlilerin yaşam kalitesini yükseltmek amacıyla dijitalleşmektedir.

Küreselleşmenin etkisiyle artan teknolojik ilerlemeler bilginin tıpkı ürünler gibi hızlı bir şekilde dolaşıma ve paylaşımına girmesine yol açmıştır. Bu durum gelenekselden farklı yeni yapı, fonksiyon ve süreçlerin varlığına yönelik bir değişimi kaçınılmaz kılmıştır. Kamu sektöründe başlangıçta iletişim teknolojilerindeki değişim ile başlayan bu dönüşüm süreci, ardından pek çok hizmetin elektronik ortamda sunumuyla devam etmiştir.

Büyük bir kısmı kentlerde yaşayan nüfusun yaş dinamiği de dikkate alındığında artan ve farklılaşan hizmet taleplerinin nasıl karşılanacağı hususu önemli bir hâl almıştır. Günümüz kentlileri internet ve internet teknolojisinin sunduğu diğer araçları aktif kullanan bireyler olarak yerel hizmetlerin hem tüketicisi hem de üretim biçiminin belirleyicisi hâline gelmişlerdir. Bu süreçte yerel yönetimler artan talep ve beklentilere göre yönetim ile örgüt yapılarını uyarlamak zorunda kalmıştır. Öte yandan teknolojideki son gelişmelerin takip edilmesi kadar nüfusun katılımı, yönetim ilkelerinin yerleşmesinin önemi artmıştır.

Günümüzde yerel yönetimlerin pek çoğu elektronik dönüşüm sürecini hızlandırmıştır. Özellikle Covid-19 pandemisi bilgi teknolojilerinin kullanılabilirliği konusunda pek çok kurum gibi yerel yönetimleri de yöreklendirmiş, acil durumlar için dijital çözümlere yatırım yapma girişimleri artmıştır. Dijital dönüşüm sü-

YEREL YÖNETİMLERDE STRATEJİK YÖNETİM

Ali Davut Alkan¹

GİRİŞ

Yerel yönetimler, Türkiye’de yerleşik halkın yerel ortak ihtiyaçlarını karşılamak üzere tesis edilmiş kuruluşlarken zaman içinde merkeziyetçi yönetim yaklaşımının tesiriyle bir hizmet birimi olarak görülmeye başlanmış ve merkezî yönetimin bölgelerdeki bir unsuru olarak değerlendirilmiştir. Bilhassa 2000 yılından itibaren hayata geçirilen hukuki uygulamalar öncesinde ağır bir denetim ve vesayet altında kontrol edilmiş ve kendince bir yönetim mimarisi oluşturmaya, karar ve kaynaklarla ilgili müstakil kararlar almasına müsaade edilmemiştir (Ünal, 2012: 277-278). Yerel yönetimler; altyapı, zabıta, cenaze, itfaiye ve genel temizlik gibi hizmetler sunarken iletişim ve ulaşım olanaklarının artması ve bu olanaklara erişimin kolaylaşmasıyla birlikte dünya genelinde kardeş şehir uygulamaları başta olmak üzere çeşitli iş birlikleri geliştirmektedir. Bu yolla, yerel meselelerden bazılarının uluslararası ortaklıkların katkısıyla çözümü öngörülmektedir (Çelebi Zengin & Alkan, 2022: 459).

Mecek ve Atmaca (2020: 2068), Türkiye’de yerel yönetimlerin uygulamaları ile mevzuat arasında pek çok noktada uyumsuzluklar yaşandığını, hatta bazı hatalı kanun değişiklikleri sebebiyle anayasanın bazı maddeleri ile uyumsuzluklar görüldüğünü belirtmektedir. Ancak Türkiye’deki yerel yönetimlerle ilgili temel hususlar, Türkiye Cumhuriyeti Anayasası kapsamında düzenlenmiştir. Bu temel düzenleme dışında, yerel yönetimlerle ilgili farklı ihtiyaçlar ve gelişen durumlara göre yasal düzenlemeler de zaman zaman yapılmakta ve uygulanmaktadır.

cine katkı yapabilecek adımların eksikliğine işaret etmektedir. Merkezî yönetimin, yerel yönetimlerin stratejik planlama sürecine katkı sağlayacak daha etkin bir katılım ve denetim mekanizması tesis etmesinin olumlu sonuçlar sunacağı öngörülmektedir.

Zaei vd. (2013: 743), yerel yönetimlerin stratejik yönetim yaklaşımını hakıyla uygulaması için mevcut koşullar altında verimliliği en üst düzeye çıkaracak ve maliyetleri asgari düzeye indirecek yapısal değişiklikleri gerçekleştirmesi gerektiğinin altını çizmektedir. Tekin (2018: 478), yerel yönetimlerin stratejik yönetim yaklaşımını başarıyla uygulaması için personelin eğitim ve yeterlilikleri doğrultusunda bir görevlendirme ve yapı kurmasının önemini belirtmektedir. Güngör (2011: 114), yerel yönetimlerde stratejik planlama başarısının tek seferlik ve durağan yasal düzenleme ve uygulamalarla sağlanamayacağını, deneyim ve değerlendirmeler doğrultusunda sürekli iyileştirme, değişiklik ve düzenlemelerle sağlanabileceğini ifade etmektedir. Yerel yönetimlerin stratejik plan hazırlama dönemlerinden önce, ilgili bakanlıklar tarafından iç ve dış çevre koşullarında meydana gelen ve önemli olarak değerlendirilen hususların bir rapor hâlinde yerel yönetimlerle paylaşılması ve geçmiş dönemde yapılan hataların isim verilmeden sunulması faydalı olabilir.

Son tahlilde, özel sektördeki uygulamaları incelendiğinde doğru uygulandığı ve kararlı olunduğu takdirde başarıya ulaştığı görülen stratejik yönetim yaklaşımının yerel yönetimlerde de başarı ve verimliliği sağlayacağı değerlendirilmektedir. Ancak Türkiye'deki siyasi iklimde, yerel yönetimlerin iyi niyetli ve gerçekçi olarak belirlenmiş hedeflerine ulaşmasına zaman zaman farklı gerekçelerle bilinçli ya da bilinçsiz olarak izin verilmediği görülmektedir. Yerel yönetimlerin, görüş farklılıklarına rağmen personeline stratejik bilinç kazandırmakla işe başlaması, hedeflerine giden yolda sabırlı ve kararlı davranarak stratejik yönetim yaklaşımını takip etmesinin faydalı olacağı beklenmektedir.

YEREL YÖNETİMLERDE TOPLAM KALİTE YÖNETİMİ KÜLTÜRÜNÜN YERLEŞMESİNDE HİZMET TALEP EDENLERİN ROLÜ

Hava Tahtalıoğlu¹

GİRİŞ

Toplam Kalite Yönetimi (TKY) 1980’li yıllardan itibaren yaşanan küresel değişimler sonucunda kamu yönetimi kültüründe önem kazanan çağdaş anlayışlardan biridir. 20. yüzyılın başlarında TKY özel sektör için oluşturulan bir yönetim modeli olmasından dolayı kamu yönetiminde benimsenmesi ve uygulanması zaman almıştır.

TKY’nin amacı, merkezden ve yerelden hizmet talep edenlerin beklentilerinin en üst düzeyde karşılanmasını, başka bir ifadeyle müşteri/yurttaş memnuniyetinin veya tatminin sağlanmasını hedefleyen yönetim kültürünün oluşturulmasıdır. Yönetişim ve diğer çağdaş yönetim anlayışlarıyla TKY arasında sıkı ilişkiler bulunmaktadır. Ancak kalite konusunun çok boyutlu ve aktörlü yapısı diğer yaklaşımlara oranla TKY’nin daha fazla dikkat çekmesine sebep olmaktadır. TKY anlayışı iş kalitesinin yanı sıra hem iç müşteriye hem de dış müşteriye odaklanarak, kalite ölçütlerini ve çıktılarını belirlemektedir. Böylece kaliteyi dar bakış açısıyla değerlendiren yönetim yaklaşımlarından farklı olarak TKY’de, işin kalitesinden söz edilebilmesi için ne istediğini ve beklediğini bilen müşteriler/yurttaşlar ile alanında uzmanlaşmış kaliteli çalışanlara ihtiyaç duyulmaktadır. TKY’de bahsi geçen bu ihtiyaçlar, sürece dâhil olan aktörleri de çeşitlendirmektedir. Bu aktörler temelde iki şekilde irdelenmektedir. İlki üst yönetim/liderler, ikincisi müşterilerdir. Müşteriler ise kendi içinde iç müşteri ve dış müşteri olarak ikiye ayrılmaktadır. İç müşteriler çalışanlar iken dış müşteriler yurttaşlardır.

1 Dr. Öğr. Üyesi, Niğde Ömer Halisdemir Üniversitesi İİBF Kamu Yönetimi Bölümü, htahtalioglu@gmail.com, ORCID ID: 0000-0003-4698-4650.

mesinde önemli kriterlerden biri olan yönetim anlayışlarında yaşanan değişimlere paralel yurttaşın beklentisindeki değişimleri tetikleyen eğitimleri çeşitlendirmesi, yaygınlaştırması ve teşvik etmesidir. Ancak yönetimin, yurttaşın gönüllü katılımı ve beklentilerini gelenekselden moderne dönüştürebilecekleri eğitimlere yönelik teşvik edici girişimlere yeteri kadar ağırlık vermediği/veremediği görülmektedir.

TKY'nin yerel yönetimlerde etkilerinin hissedilmesi; yurttaşların bilgileri, deneyimleri ve duyduklarıyla ilişkilendirilen beklentilerini geliştirmeyi amaçlayan mekanizmaların kurulmasıyla sağlanabilir. Bu mekanizmaların kurulmasında eğitim kurumlarına, yerel yönetim birimlerine ve medyaya önemli görevler düşmektedir. Öncelikle yerel yönetimlerin görev ve sorumluluk alanları hakkında yurttaşların bilgilendirilmesi, yönetime katılım mekanizmalarına dâhil edilmenin özendirilmesi ile yönetim deneyimlerinin artırılması gerekmektedir. Yerinden yönetim birimlerine yörede faaliyet sergileyen eğitim kurumları, gönüllü olan yurttaşlara yönetimin ödev ve sorumlulukları hakkında bilgilendirici eğitimler verme yönünde destek olmalıdır. Medya kuruluşları ise hem merkezî yönetim hem de yerel yönetimler tarafından sunulan hizmetlerin kalitesini artırabilmek adına bilinçli bir yurttaş kitlesinin oluşması için özellikle gündüz kuşağında eğitici programlara yer vermelidir. Böylece bilinçlenen yurttaşın kamu hizmetleri sonucunda beklentilerinin karşılanma oranıyla ortaya çıkan tatmin düzeyi TKY kültürünün yerleşmesine ve süreklilik arz etmesine vesile olacaktır.

NİĞDE KENT KÜLTÜRÜNÜ İNŞA EDEN UNSURLAR

Şükrü Türköz¹

GİRİŞ

Sosyal bilimlerde çokça çalışılan bir konu olan kent olgusu üzerine oldukça geniş bir literatür birikmiştir. Bununla birlikte kent olgusuna yönelik farklı yaklaşımlar nedeniyle kent kavramının tanımlanmasında dahi ortak bir yönelimden bahsetmek mümkün değildir. Özellikle küreselleşme süreciyle birlikte kent çalışmalarına olan ilgi artmış, bu bağlamda akademik yazında küreselleşmenin kent üzerindeki olumsuz etkileri çokça tartışılmıştır (Ritzer, 2011; Kayan, 2015; Özcan ve Sümer, 2015). Modernleşme sürecinin bir aşaması olarak ele alınan küreselleşmenin, birçok alanda olduğu gibi kentlerde de yerel ve bölgesel farklılıkları ortadan kaldırarak kültürel çeşitliliği yok ettiği, kentleri özgünlükten uzak, renksiz ve kimliksiz yerlere dönüştürdüğü iddia edilmektedir (Oktay, 2011: 9; Bilgin, 2011: 24). Bu açıdan günümüzün modern kentleri geçmişten farklı olarak tek tip meydanları, ağaçsız caddeleri, tek tip okul binaları ve çatısız apartmanlarıyla birbirine benzemektedir (Bumin, 1990: 11). Ancak, fiziksel görünüm olarak gittikçe benzeşen kentler aslında bünyelerinde barındırdıkları farklı kültürler nedeniyle kendi içlerinde dahi farklılaşmaktadır. Bu bakımdan aynı kent içerisindeki semtler, hatta mahalleler arasında bile belirgin kültürel farklılıklar ortaya çıkabilmektedir. Bu anlamda kent kültürü kavramı herhangi bir kent için homojen bir toplumsal kimliği veya kültürü ifade etmemektedir. Kent kültürü kavramıyla daha çok, bir kenti diğerlerinden ayıran ve söz konusu kentte baskın olan kültürel değerlerin izahı söz konusudur. Kent kültürü bu bakımdan maddi ve manevi olarak bir kentin bütününe ait değerleri içerir. Kente ait kültür, kent kimliğini belirginleştirir ve bu kimliğin sonraki kuşaklara aktarılmasında başat

dir. Niğde'nin üzerine yapışıp kalan bu “arada/kenarda kalmış küçük taşra kenti” imajı, kent potansiyelinin her bakımdan değerlendirilmesini engelleyen en büyük faktördür. Bu anlamda kentin sahip olduğu doğal güzelliklerin ve kültürel mirasın bulunduğu alanlar turizm amaçlı yeniden düzenlenerek bunların tanıtımı ciddi bir planlama çerçevesinde ve profesyonelce yapılabilirse, kentin turizm noktasında yaşadığı dezavantajlı durum tersine çevrilebilir.

Son dönemde kentin tarihî/kültürel zenginliğini korumak, bunları geliştirmek ve kenti dünyaya tanıtmak amacıyla planlanan projeler dikkat çekicidir. Özellikle “Kale Çevresi Yenileme ve Koruma Projesi” ile “Niğde Kültür Yolu Projesi” planlandığı şekliyle tamamlanabilirse Niğde kent kültürünün korunması ve gelecek kuşaklara miras bırakılması mümkün olacaktır. Bu projeler ayrıca, kentin turizm potansiyelinin Türkiye’de ve dünyada daha geniş biçimde tanıtılmasına da imkân sağlayacaktır. Bununla beraber anılan projeler kent kültürünün statik (durağan) unsurlarının korunması ve tanıtılmasına yöneliktir. Oysa kent kültürü sadece durağan unsurlardan oluşmaz. Kent kültürü, zaman içerisinde değişebilen ve gelişebilen, dinamik bir karaktere sahiptir. Niğde kent kültürünün dinamik unsurlarını ise kentin sosyoekonomik ve kültürel yapısındaki hareketlilikler oluşturmaktadır. Bu bakımdan 1992 yılında kentte kurulan üniversite, son otuz yılda giderek artan öğrenci sayısı ile Niğde'nin sosyal, ekonomik ve kültürel hayatında bir dinamizm unsuru hâline gelmiştir. Yakın gelecekte de Niğde kent kültürünü etkileyecek en önemli değişkenin üniversite olacağı öngörülmektedir. Bu nedenle, üniversite kapasitesinin yeni birimler ve öğrenci sayısı bağlamında artması kadar ülke ve dünya genelinden nitelikli öğrencileri kente çekebilecek bir yapıya kavuşması da önem taşımaktadır. Bu açıdan üniversitedeki eğitimin kalitesinin (nicelik ve nitelik) yükselmesi kentin sosyal, ekonomik ve kültürel anlamda gelişmesine de katkı sağlayacaktır.

miz ve kaliteli olduğunu düşünerek helal gıda ürünlerine daha fazla rağbet göstermeye başlamaları, gıda üretim ve işleme teknolojilerinde yaşanan gelişmeler vb. birçok sebepten dolayı helal gıda konusunun gelecekte de önemini koruyacağı değerlendirilmektedir. Bu sebeple gelecekte bu konuda, farklı disiplinlerden araştırmacıların gerek teorik anlamda gerekse de uygulamalı olarak farklı çalışmalar yapmaları gerektiği ifade edilebilir.

HELAL LOJİSTİK VE KÜRESEL TEDARİK ZİNCİRİNDEKİ YERİ

Dr. Öğr. Üyesi Ahmed Yusuf Sarıhan

GİRİŞ

Helal, Müslümanların yaşam tarzını oluşturan kavramların başında gelmektedir. Dolayısıyla başta beslenme olmak üzere pek çok sektörü Müslümanlar açısından etkilemektedir. Bu kitabın daha önceki bölümünde bahsedildiği gibi helal ürün kullanım gerekliliği Müslümanlar açısından seçiciliği beraberinde getirmektedir. Özellikle helal ürünlerin haram ürünlerle temas etmesi hâlinde haram olduğu varsayımı Müslüman toplumların hayatını daha derinden şekillendirmektedir. Ayrıca Müslüman toplumların dünya nüfusu içerisindeki oranı ve nüfus artış hızı göz önüne alındığında dinî isteklerine yönelik artan bir talepten söz edebilmek mümkündür. Müslüman toplumların istek ve arzularına diledikleri şekilde ulaşmaları önemli bir mesele hâline gelmektedir.

Zaman ve mekân faydası yaratmak suretiyle arz ve talebin koordinasyonunu sağlayan ve ürünlerin hareketini kolaylaştıran tüm faaliyetler lojistik olarak ifade edilebilir. Ayrıca müşteri gereksinimlerine uyum sağlamak amacıyla malların, hizmetlerin ve bilginin çıkış noktasından tüketim noktasına kadar etkili ve verimli bir şekilde akışına katkı sağlayan tüm depolama, planlama, uygulama ve kontrol etme süreçleri de lojistiğin alanına girmektedir. Helal lojistik kavramı tam olarak bu noktada gündeme gelmekte ve Müslüman toplumların ihtiyaçları ile lojistik faaliyetlerini birleştirmektedir.

Müslüman toplumlar, tükettikleri ürünlerin İslami ilkeler çerçevesinde kendilerine sunulduğundan emin olmak ve söz konusu ürünlerin sağlıklı ve iyi anlamına gelen tayyib olmasına yönelik güvenceler istemektedir. Ürünün helal olup olmaması tedarik zincirindeki çeşitli faaliyetlerin bir sonucu hâline geleceğinden, helalliği güvence altına almak açısından tedarik zinciri ve lojistik yaklaşım da büyük önem taşımaktadır. Özellikle kitlesel üretim ve tüketimin son derece hız kazandığı günümüzde ürünlerin ham madde tedariki, üretilmesi, paketlen-

Malezya’da üretilen bir helal ürünün İngiltere’de yaşayan bir Müslümana İslami koşullarda ulaştırılması için küresel tedarik zincirinde faaliyet gösteren lojistik hizmet sağlayıcıların adım atması gerekmektedir. Bu bağlamda özellikle İslami açıdan standartları belirleyen kurumların ajandaları ve rehberleri takip edilerek lojistik işletmecilerin helal lojistiğe kendilerini hazırlamaları, lojistik faaliyetlerin her aşamasında bu hassasiyetleri gözetmeleri önerilmektedir. Çünkü bu konu sadece Müslüman toplumların beklentisinin karşılanmasına ilave olarak işletmelerin karlılığını artıracak yeni bir iş alanı olarak benimsenmelidir. Ayrıca literatür taramasında görüldüğü üzere, gayrimüslimlerin de helal lojistik ve helal ürünler noktasında beklentileri olabilmektedir. Yani helal lojistiği sadece bir kesimin tercihi olarak sınıflandırmak da doğru bir yaklaşım olmayacaktır. Çünkü helal olma gereksinimlerine bakıldığında aslında tüm insanlığa fayda sağlayabilecek ve zararlı kontaminasyonların önüne geçilebilecek adımları içerdiği görülmektedir. Dolayısıyla küresel çapta faaliyet gösteren lojistik hizmet sağlayıcıların helal lojistik noktasında farklı bakış açıları geliştirmelerinin yararlı olacağına inanılmaktadır.

Gelecekte yapılacak bilimsel araştırmalar açısından bakıldığında ise büyük potansiyelli bir araştırma alanı ve farklı bağlamlarda kullanılacak ölçeklerin varlığı ile helal lojistik konusu değerli bir araştırma fırsatı olarak görülmektedir. Özellikle Türkiye gibi medeniyetler arasında köprü görevi üstlenen ülkelerde, lojistik hizmet sağlayıcıların helal lojistiğe olan bakış açılarının keşfedilmesi, helal lojistik sertifikası olan işletmelerin geçtiği aşamaların anlaşılması ve bu konularda ampirik araştırmalar yapılması araştırmacılara yönelik öneriler olarak değerlendirilebilir.

HELAL TURİZM

Dr. Öğr. Üyesi Selman Temiz

GİRİŞ

Turizm, oluşturduğu istihdam kapasitesinin genişliği, bölgeler arası kalkınma farklılıklarını azaltılmasına sağladığı katkı ve gelir yaratıcı etkisi gibi nedenlerden dolayı pek çok ülke ekonomisi için önemli bir rol oynamaktadır. Turizm, tarım başta olmak üzere diğer pek çok sektörle olan yakın ekonomik ilişkisi nedeniyle ülke gelirini artırırken yerel nüfus için sürdürülebilir istihdam olanakları oluşturulmasına katkı sağlamaktadır. Söz konusu katkılar turizmin pek çok ülke için ayrıcalıklı ve önemli bir yere sahip olmasına neden olmaktadır (Ratnasari vd., 2020: 865). Mohsin vd. (2016: 137); turizm sektörünün ne kadar benzersiz bir sektör olduğunun Körfez Savaşı, terör saldırıları, grip korkuları vb. gibi olumsuz olaylara rağmen sektörün büyüme kaydetmeye devam ettiğini gösteren verilerden çok açık bir şekilde görüldüğünü belirtmektedirler. Turizm, oldukça geniş bir sektör olup konaklama, yiyecek-içecek, ulaşım-seyahat, eğlence gibi çok sayıda alt sektöre sahiptir. Sektör aynı zamanda kendi içerisinde de farklı sınıflandırmalara göre pek çok farklı turizm türünü bünyesinde barındırmaktadır. Örneğin yalnızca alternatif turizm başlığı altında yaklaşık elliye yakın farklı turizm türü bulunmaktadır.

Daha fazla turizm geliri elde etme konusunda oldukça yoğun bir rekabet ortamına sahip olan turizm sektöründe, dünya genelinde pek çok destinasyon (varış yeri) bir biri ile yarış hâlinindedir. Her geçen yıl bir önceki yıldan daha fazla sayıda turist çekmek ve turizm geliri elde etmek isteyen turizm destinasyonları, turistlerin istek ve ihtiyaçlarını yakından takip etmektedirler. Söz konusu rekabet ortamı, turizm pazarında meydana gelen her bir değişikliğin destinasyonlar ve turizm işletmeleri tarafından dikkatle incelenmesini zorunlu kılmaktadır. Bu kapsamda turizm sektöründe son dönemlerde yaşanan önemli bir değişim Müslüman ülkelerden gelen turist sayısında yaşanan artıştır. Müslüman nüfus, diğer dünya dinlerinden daha hızlı büyümekte olup 2010'da 1,5 milyarı aşan küresel Müslüman nüfusun 2030'da 2,3 milyara çıkacağı ve dünya nüfusunun yaklaşık olarak %27'sini oluşturacağı tah-

lilikleri zorunlu hâle getirmektedir. Tuna'ya (2016: 261) göre, İslam dini sadece bir din olmanın da ötesinde bir yaşam biçimi olup Müslümanların hayatının her aşamasında olduğu gibi destinasyon seçimlerinin yönünü de etkilemekte ve destinasyondaki sergilenen davranış ve faaliyetlerde de uyulması önerilen bazı gereklilikler getirmektedir. Bu kapsamda özellikle 2000'li yıllardan sonra turizm pazarında Müslümanlara yönelik yeni bir ürün olarak ortaya çıkan "helal turizm" olgusu, turizm pazarlamacılarının, araştırmacıların ve destinasyonların gittikçe daha fazla ilgisini çekmektedir. Destinasyonların çoğu büyüyen helal turizm pazarından daha fazla pay alabilmek için Müslüman turistlere yönelik turizm ürünleri tasarlamakta ya da kendilerini helal turizm gerekliliklerine uygun hâle getirmek için dönüştürmektedirler. Bu kapsamda Müslüman olmayan destinasyonların da helal turizm pazarından pay alma yarışına girdikleri görülmektedir. Dünya Müslüman nüfusu ve bu nüfusun gelir dağılımı ile ilgili gelecek tahminlerinin sonuçları, helal turizm pazarının ilerleyen yıllarda turizm pazarı içerisinde en hızlı büyüyen alan olacağına işaret etmektedir. Dolayısıyla Müslüman ya da Müslüman olmayan turizm destinasyonlarının helal turizm pazarından pay alabilmeleri için Müslüman turistlere yönelik mal ve hizmet geliştirmelerinin faydalı olacağı değerlendirilmektedir.

HELAL KOZMETİK VE KİŞİSEL BAKIM ÜRÜNLERİ

Dr. Öğr. Üyesi Tuğba Özbölük

GİRİŞ

Helal ürün kavramı genel olarak gıda ile ilişkilendirilse de bu kavram aslında gıda dışında daha geniş bir alanı kapsamaktadır (Majid vd., 2015: 48). Helal kavramı sadece yiyecek ve içeceklerle sınırlı olmayıp kozmetik, kişisel bakım ve temizlik ürünleri, ilaçlar gibi tüm sarf malzemelerini, finans ve turizm gibi diğer mal veya hizmetleri de kapsamaktadır (Lada vd., 2009: 66; İslam ve Chandrasekaran, 2013: 3938; Abd Rahman vd., 2015: 149; Suparno, 2021: 1665). Bu doğrultuda, helal ürün sektörü de son yıllarda gıda sektörünün ötesine geçerek helal bir yaşam tarzını da kapsayacak şekilde genişlemeye başlamıştır. Giderek tüm dünyaya yayılan bu helal yaşam tarzı, bugün yalnızca tüketicilerin ürünleri satın alma şeklini değil aynı zamanda bazı işletmelerin çalışma şeklini de değiştirmiştir (Wilson, 2014: 255; Divianjella vd., 2020: 71).

Helal ürün endüstrisi, son yirmi yılda pazarlamacılar için çekici sektörlerden biri hâline gelmiştir. Müslüman ülkelerin artan ekonomik gücü, onları güzellik ve kişisel bakıma daha fazla harcama yapma konusunda etkilemiştir (Swidi vd, 2010: 1). Khalek ve İsmail'e (2015: 608) göre büyüme açısından dünya çapında en hızlı büyüyen pazarlardan biri olarak kabul edilen helal ürün pazarındaki ürünlere yönelik küresel harcama, 2021 yılında 2 trilyon ABD dolarına ulaşmış 2023 yılına kadar 3 trilyon ABD dolarına ulaşması beklenmektedir. Küresel helal pazarının 2024 yılına kadar ise yıllık %6,8 bileşik büyüme oranıyla genişlemesi beklenmektedir (Thomson Reuters, 2018; Küresel İslam Ekonomileri Durum Raporu, 2022).

Helal endüstrisine yönelik talebi yönlendiren şey, Müslüman nüfusa artık genç ve dinamik profesyonellerden oluşan bir demografinin hâkim olduğu gerçeğidir. Bu genç Müslümanlar İslami yaşam tarzlarını benimseyen ve günlük yaşamın bir parçası olarak helal tüketim konusunda genel olarak bilinçli yeni bir nesildir

daha bilimsel yöntemlerin kullanılması gerekmektedir (Sugiyabashi vd., 2019: 10). Kadınların helal kozmetiğe olan ilgisi artmaya devam ederken endüstriyi daha yüksek bir konuma getirmek için teknoloji etkili bir şekilde kullanılmalıdır.

Nitekim helal kozmetik ürünleri sadece Müslümanların değil Müslüman olmayan tüketicilerin de ilgisini çekmekte ve daha sağlıklı ve güvenli ürünler olarak algılanmaktadır (Mohezar vd., 2016: 54; Amalia vd., 2020: 1186; Shahid vd., 2018: 486). Helal kozmetikler, helal yönergelere uymanın yanında yüksek kaliteli ürünler sağladıkları için kozmetik sektöründe bir atılım ve devrim niteliğinde kabul edilmektedir (Handriana vd., 2021: 1309; Khan vd., 2021: 1462). Müslüman olmayanlar da helal olmayan ürünlerden daha güvenli oldukları algısı nedeniyle helal ürünler satın almaktadırlar (Alam ve Sayuti, 2011: 8). Müslüman olmayan tüketiciler helal logosunu ürün hakkında tanınırlık ve güvenlik sağlayan bir sembol olarak algılamaktadır (Abdul Aziz ve Chok, 2013: 19). Helal sertifikalı ürünler aynı zamanda daha doğal, etik, çevre dostu, organik, sömürücü olmayan ve insani bir yaklaşımla üretilen ürünlerdir (Aoun ve Tournois, 2015: 121; Ali vd., 2016: 53; Bhatia ve Jain, 2013: 1). Aoun ve Tournois (2015: 121), helal belgelendirme ile çevre kirliliğine karşı mücadele eden ve yeşil pazarlama uygulayan markaların sayısının giderek arttığını belirtmiştir.

Bu nedenle helal ürün üreticilerinin organik ve hayvan deneyleri içermeyen “doğal” ürünler arayan tüketicileri de hedeflemesi gerekmektedir. Helal ve vegan ürünler aynı amaca hizmet ettiği için pazarlamacılar onların tüketimlerinden de fayda sağlayabilirler (Shahid vd., 2022). Özellikle son yıllarda doğal, organik ve vegan kozmetiklere olan talepteki artışla birlikte, helal markalar pazar payını korumak ve artırmak için daha fazla zorlukla karşı karşıya kalmaktadır. Dolayısıyla helal markalar ürünlerini satmalarına yardımcı olmak için başka sertifikasyon etiketleri de almakta; organik, doğal ve vegan markalar da daha fazla pazar çekiciliğine sahip olmak için helal sertifikası almaktadır.

HELAL İLAÇ VE TAKVİYE EDİCİ GIDALAR

Dr. Öğr. Üyesi Sema Dalkılıç

GİRİŞ

Dünya nüfusunun %24,4'ünü Müslümanlar oluşturmaktadır. Bu da helal pazara olan ilgiyi artırmaktadır. Sadece Müslüman olanlar için değil farklı dinî inanışlarda olanlar için de helal temelli iş sektörleri bir yaşam tarzı hâline gelmiştir (Vizano vd., 2020: 59). Helal ürünler günlük tükettiğimiz her şeyin güvenlik, hijyen ve kalite güvencesi için bir ölçüt olarak kabul edilmesi, bu ürünlerin hem Müslümanlar hem de diğer dinlere mensup kişiler için kolaylıkla kabul edilebilir olmasını sağlamaktadır (Ambali ve Bakar, 2014: 11). Nitekim Aziz ve Chok (2013), Müslüman olmayanların helal ürünleri temizlik, güvenlik ve yüksek kalite sembolü olarak gördüklerini, helal sertifikalı yiyecekleri daha lezzetli, hijyenik ve güvenli hissettiklerini belirtmiştir.

Bazı işletmeler helal kavramını, pazar payını artırmaya yardımcı olacak bir marka bileşeni olarak görmesine rağmen bu kavram Müslümanlar için bir marka unsurundan çok günlük yaşamın, inanç sisteminin ve ahlaki davranış kurallarının bir parçasıdır (Wilson ve Liu, 2010: 108). Ayrıca helal kelimesi “iyi”, “lezzetli”, “güvenli” ilkelerini kapsamakta ve bunlar helal ürünlerin pazarlanmasında yeni bir trend ve değer katan bir faktör olarak kullanılmaktadır (Kasri vd., 2021: 4). Helal marka olmak, marka özellikleri bakımından dinî özellikleri temsil ettiği için benzersizdir ve helal markanın bu boyutu helal markalara İslami açıdan bakıldığını göstermekte, bu da bu kavramın ürünlere tüketiciler için üreticiler tarafından manevi bir özellik kattığını düşündürmektedir (Farah, 2021: 283).

Helal ürünler; gıda, içecek, ilaç, kozmetik, kimyasal ürünler, biyolojik ürünler, genetiği değiştirilmiş ürünler gibi tüketilebilir ürünler veya İslami ilkelere uygun olarak insanlar tarafından kullanılacak ve uygulanabilecek her türlü maldır (Rahmah ve Barizah, 2020: 2012). Helal kavramı sadece yiyecek ve içecek için değil yaşam tarzı olarak düşünüldüğünde ilaç ve takviye edici gıda tüketimi, sağlık hizmeti alımı gibi birçok davranışı etkilemektedir. Helal ilaçların or-

durum helal ilaç ve takviye edici gıda konusunun önemini artırmakta ve gelecekte konu ile ilgili daha fazla çalışma yapılması gerektiği sonucunu doğurmaktadır.

İSLAMİYET’TE GİYSİ MODASI–HELAL MODA

Öğr. Gör. Mine Balcı
Dr. Öğr. Üyesi İdil Yiğit

GİRİŞ

Dünyada Müslüman nüfusun son zamanlardaki hızlı büyümesi, tesettür modasına yönelik talebin artmasına neden olmuştur. “Tesettür”ün gerçek anlamı örtünmek veya perdelemektir. İngilizcede “scarf” ve Arapçada “Hijab” olarak ifade edilmektedir. İslam hukukunun (şeriat) izin verdiği sınırlarda hem erkeklerin hem de kadınların; mütevazı, vücuda oturmeyen, teni göstermeyen ve karşı cinsle benzemeyen kıyafetler giymesi gerekmektedir. Aynı zamanda kadınların yüz ve eller hariç tüm vücutlarını başlarına kadar örtmeleri belirtilirken erkek kıyafetlerinin ve aksesuarlarının ipek ve altın içermemesi gerektiği de vurgulanmıştır. Tesettür sadece giyimle ilgili olmayıp kişinin salih amellerini, davranışlarını, tutumlarını, ahlaki davranışlarını ve niyetlerini içeren bir yaşam biçimidir. Bu nedenle yapılan her işte olduğu gibi giyimde de İslamiyet’in izin verdiği, helal kabul edilen sınırlar içinde tercihler yapılması gerekmektedir. İslami giysi modası; tesettür ya da helal giyim modası şeklinde yorumlanan geniş kapsamlı bir olgudur.

Giyimde tevazu, güvenlik, temizlik ve rahatlık konularında İslami ilkelere uygun yeşil ve sürdürülebilir bir moda olan tesettür modasının tedarik zinciri, helal ham maddelerin hazırlanması ve biraraya getirilmesi, nihai ürünlerin müşteriye teslimine kadar tüm süreci kapsamaktadır. Bu tedarik zincirinin en önemli halkaları olan üreticinin ve tüketicinin tesettür ile ilgili bilgileri çok kısıtlıdır. Ürün bilgisi, ürünlerin satılması ve alınması konusunda önemli bir etkiye sahiptir. Bu nedenle ürünlerin ne olduğu, nasıl üretildiği, lojistiği ve dağıtımı gibi bilgiler tesettür modasının gerçek amacına hizmet etmesi bakımından önemlidir (Erdem, 2015: 260-265; Hassan ve Harun, 2016: 483; Sumarliah vd. 2020: 83-91).

İslam dininin doğaya ve canlıya verdiği önem pek çok ayet ve hadis içinde yer almaktadır. Dolayısıyla dininin bu hassasiyetine sahip olan tüketiciler çevreyi önemsemekte, giysi alışverişlerinde tercihlerini doğadaki kaynakların israf olma-

re farketirmeye çalışmaktadır. Dindar tüketiciler çevreyi önemseyen ve çevreye olan pozitif eğilimleri nedeniyle ihtiyaç dışı giyim alışverişi yaparak doğadaki kaynakların israf olmasını istememektedirler.

HELALLİK AÇISINDAN GIDA KATKI MADDELERİ

Dr. Öğr. Üyesi Zehra İrem Yıldız

GİRİŞ

Yaşadığımız yüzyılda gıda bilimi ve teknolojileri alanındaki gelişmeler sonucunda farklı işlevlere sahip birçok yeni gıda maddesi ortaya konulmuştur. Modern dünyada, tüketiciler birçok alanda olduğu gibi gıda sektöründe de daha fazla seçeneğe daha kolay ulaşma isteği duymakta ve ulaştığı gıdanın da güvenilir olması yönünde talepte bulunmaktadır. Günümüz karmaşık gıda zincir sistemi düşünüldüğünde gıdaların tarladan sofraya uzanan zorlu yolculuklarında arzu edilen hâllerinin dışına çıkarak bozulmalarına sebep birçok etkene maruz kaldığı bilinmektedir. Bunların başında sıcaklık değişimleri, mikroorganizmalar, oksidasyon gibi faktörler gelmektedir. Tüm bu bozulmaların önüne geçebilmek, gıdanın cezbediciliğini de kaybetmeden, besin değerini koruyarak ve sağlık üzerinde olumsuz bir etki göstermeksizin tüketiciye ulaşmasını sağlamak adına bazı gıda ürünlerinde gıda katkı maddelerinin kullanımı gerekli hâle gelmektedir.

Gıda katkı maddelerinin kullanımı dünyada oldukça uzun bir geçmişe sahiptir. Gıda katkı maddeleri ile ilgili kayıtlar MÖ 1500 yıllarına kadar uzanmaktadır. Bu konudaki ilk kayıtların Eski Mısır'da şekerlemelere rengini iyileştirmek amacıyla doğal ekstraktların ilave edilmesi ile ilgili olduğu belirtilmektedir (Sun ve Wang, 2017: 189). MÖ 300-400 yıllarında şarapların yapay olarak renklendirildiği bilinmektedir. 19. yüzyıl öncesi gıda katkı maddelerinin yalnızca doğal kaynaklardan elde edildiği görülmektedir. 19. yüzyılın ortalarında ise bazı gıdalara görsel amaçlı safran eklendiği veya lezzet amaçlı farklı bitkilerin eklendiği görülmektedir. Gıda katkı maddelerinin sentetik yolla eldesine dair ilk kayıt, 1856 yılında İngiliz bir kimyager olan W. H. Perkins'in kömür katranından elde ettiği mor renkli bir renklendiriciye aittir (Sun ve Wang, 2017: 189). 19. yüzyılın sonlarında kimya alanındaki gelişmelerin de bir sonucu olarak çok sayıda sentetik gıda katkı maddesi üretilmeye başlamıştır.

HELALLİK AÇISINDAN JELATİN

Doç. Dr. Ayşe Neslihan Dündar
Doç. Dr. Furkan Türker Sarıcaoğlu

GİRİŞ

Jelatin, hayvanların kemiklerinde ve/veya derilerinde bulunan, kolajen adı verilen bağ dokusundan, saflaştırılarak elde edilen renksiz bir proteindir (Liu vd., 2015: 528). Jelatin, kolajenin lifli yapısının asidik veya alkali ön muamelesi ile parçalanmasının ardından çeşitli polipeptit zincirleri arasında çapraz bağların oluşmasıyla üretilmektedir (Ali vd., 2018: 1495). Jelatin, kolajen hidrolizi yoluyla elde edildiğinden jelatinin kalitesi öncelikle kolajen kaynağına bağlıdır (Yuswan vd., 2021: 1). Eşsiz yapısal stabiliteye, beslenme özelliğine ve diğer fizyokimyasal özelliklere sahip olan protein bazlı bir hidrokolloiddir (Hassan vd., 2018: 2903; Liu vd., 2015: 528; Zhang vd., 2009 :2001). Bu özelliklerinden dolayı endüstride kalınlaştırıcı, emülgatör, plastikleştirici ve ayrıca jelleştirici, köpük oluşturucu, doku geliştirici, nem tutucu ve bağlayıcı olarak çeşitli gıda, ilaç ve kişisel bakım ürünlerinde yaygın olarak kullanılmaktadır (Rakhmanova vd., 2018: 477). Gıda endüstrisinde kek, yoğurt, çikolata, yumuşak şeker, dondurma, jöle, jöleli tatlılar, peynir, şekerleme ve sakız gibi çeşitli ürünlerde kullanım alanı vardır. Öte yandan, ilaç endüstrisinde, ilaçları ışık, nem ve oksijenin zararlı etkilerinden korumak için yumuşak ve sert kapsül üretiminde etken maddelerin enkapsülasyonunda önemli bir rol oynamaktadır. Ayrıca tabletlerin, hapların şekerle kaplanması ve vitamin kapsüllemesinde de faydalıdır (Karim ve Bhat, 2008: 644; Zhang vd., 2009: 2001). Bu endüstrilerde jelatin hidrokolloidine alternatif olarak agar, karragenan, pektin, ksantan gam ve konjak glukomannan gibi bitkisel ve mikrobiyal kaynaklar kullanılmasına rağmen jelatinin sağladığı avantajlar, ekonomik olması, kaynaklarının bol ve üretim veriminin yüksek olması nedeniyle hâlâ vazgeçilemezdir (Uddin vd., 2021: 1).

Jelatin, hayatımızın çeşitli alanlarında birden fazla kullanıma sahip olsa da modern helal gıda endüstrisinde en tartışmalı maddelerden biri olarak kabul edilmektedir. Bu nedenle jelatinin tür orijininin tespitinin belirlenmesi son derece

ürünlere helallik yönünden yaklaşımı sınırlandırmaktadır. Ayrıca jelatin yerine kullanılabilir ve jelatinin sağlayabileceği besinsel ve fonksiyonel özellikleri sergileyebilen bitkisel bir ikamenin olmaması, birçok sektörde jelatin kullanımını gerekli kılmaktadır. Bu yönleriyle düşünüldüğünde helal jelatin üretimi için jelatinin üretilmesi hayvansal kaynağın domuz ve tüketimi yasak olmayan hayvan türlerinden sağlanması ve bu nedenle alternatif hayvansal kaynaklardan (kanatlı, balık, deve vb.) jelatin üretimine yatırımların artırılması gerekmektedir. Jelatin yerine bitkisel kaynaklardan veya mikrobiyolojik yollarla üretilen agar, karagenan, pektin, ksantan gam, konjuk gukomannan vb. gibi alternatifler üzerine araştırmalar devam etse de bu alternatiflerin jelatinin yerini alması oldukça zor görünmektedir.

HELAL GIDA SERTİFİKASI

Doktora Öğrencisi Timuçin Dalgıç
Doç. Dr. Muhammet Ali Tiltay

GİRİŞ

Helal gıda, başta inanç olmak üzere değerler, kültür, yaşam biçimleri, beslenme alışkanlıkları gibi çeşitli değişkenlere bağlı olabilecek bir tüketici tercihidir. Helal gıda ürününün tüketicilere bu gibi değişkenler kapsamında değer sunması için ürünün üretiminde kullanılacak ham maddelerden başlayarak tüm pazarlama aşamalarını kapsayacak şekilde son tüketiciye ulaşana dek süreç hassas ve güvenilir bir sürecin yürütülmesi gerekmektedir. Böyle bir çaba ancak helal gıda konusunda standartların geliştirilmesi, güvenilir bir belgelendirme mekanizması oluşturulması ve bu sürecin sertifikalar ile denetim ve güvence altına alınması vasıtasıyla gerçekleştirilebilir. Bu kapsamda, özel olarak bu amaca odaklanmış kuruluşlar tarafından farklı din, inanç veya değerleri temsil edecek şekilde standartlar geliştirilmektedir. Helal gıda sertifikası özelinde ise çeşitli İslami kuruluşlar tarafından farklı standartlar geliştirilmekte, müteşebbisler amaçlarına ve hedef pazarlarının ihtiyaçlarına bağlı olarak kendilerine uygun olan standartların gereksinimlerini karşılamakta ve helal gıda sertifikaları temin etmektedir.

Tüketicilerin talepleri, müteşebbislerin helal sertifikalarına olan ilgisini artırmakta, şirketlerin artan ilgisi ise her geçen gün daha fazla helal standardının ve helal kuruluşunun ortaya çıkmasına neden olmaktadır. Bu şekilde büyüyen küresel helal pazarı mevcut markaların, firmaların rekabet alanı hâline gelirken pazara yeni girecek birçok marka için satışlarını ve kârlılıklarını artırmak için fırsat anlamına gelmektedir. McDonald's, Starbucks, KFC, Burger King, Nestle gibi onlarca küresel dev markanın helal gıda sertifikaları temin etmesi (Fischer, 2012) ve artan talep sonucunda son yıllarda ivmelenmeye başlayan helal gıda pazarının, sertifikalar açısından görece kısa bir tarihe sahip olduğu ve henüz emekleme aşamasında olduğu söylenebilir. Helal gıdaların piyasa değeri 2022 yılı için 2,4 trilyon dolar olarak hesaplanırken (Shahbandeh, 2018) bazı kaynaklarda ise küresel helal pazar büyüklüğünün 7 trilyon doları aştığı ifade edilmektedir (Adroit Mar-

Çin, Avustralya, Brezilya gibi birçok gayrimüslim ülke Malezya'yı küresel helal endüstrisinin öncüsü olarak görmektedir (Fındık, 2019). Helal endüstrisinde dünya lideri kabul edilen Malezya'nın (Melewar ve Alwi, 2017) sadece helal gıda sertifikalarında değil aynı zamanda helal gıda sertifikaları ile ilgili bilimsel yayınlarda da öncü konumda olduğu söylenebilir. Sıklıkla atıf yapılan ve literatüre yön veren kaynakların Malezya'da yapılan çalışmalar oldukları görülmüştür. Bu açıdan Malezya'nın gerek standartları gerek helal konusundaki gelişim süreci gerekse hükümet destekli yapısı helal sertifikaları konusunda pazarda söz sahibi olmak isteyen her ülke ve kuruluş açısından örnek teşkil etmektedir. Bu doğrultuda yapılacak çalışmalarda, ISO, HACCP, GMP, GHP gibi uluslararası kriterlere uygun, her açıdan güven ve kalite simgesi olan, mümkün olduğunca hükümet desteği alan sertifikalar hedeflenmelidir.

Son olarak çalışma için uygulanan literatür taraması sonucunda güvenilir kaynak sorunu olduğu görülmüş, özellikle Türkçe literatür olmak üzere çalışmanın konusunu oluşturan literatürde yanlış yapılan atıflara veya atıf yapılmadan kullanılan ifadelerle sıkça rastlanılmıştır. Bu sorunun temel nedenleri olarak sertifika sağlayan kuruluşların internet sayfası kaynaklarının sıkça kullanılmak zorunda kalınması, 2015 ve öncesindeki çevrim içi sayfa kaynaklarının birçoğunun hâlihazırda aktif olmaması, ulaşılabilen çevrim içi sayfalarının özensiz düzenlenmiş, konunun uzmanları tarafından hazırlanmadığı anlaşılan, yazım hataları içeren kaynaklar olması ve yabancı kaynaklardan yapılan özensiz çeviriler gibi maddeler sayılabilir. Ulaşılan birçok çevrim içi sayfanın hâlihazırda güvenli sayfa niteliği taşıyor olması, eski çevrim içi altyapılar kullanmaları, sayfalara tarih bilgileri girilmemesi, sayfalarda genellikle güncel bilgiler bulunmaması ve sayfalar içerisinde yer alan bilgilerin zaman zaman çelişmesi veya aynı bilgilerin farklı kapsamlarla verilmesi gibi durumlara da sıklıkla rastlanılmıştır. Ayrıca sertifika kuruluşlarının çevrim içi sayfalarında referanssız olarak başka kaynaklardan alınan ifadelerle de rastlamak mümkündür. Günümüz şartlarında birçok helal gıda sertifika başvurusu çevrim içi olarak yapılmakta, süreçler çevrim içi olarak yürütülmektedir. Dolayısıyla söz konusu sertifika kuruluşlarının çevrim içi sayfalarına özen göstermeleri, nitelikli ve uzman personel vasıtasıyla doğru, şeffaf ve anlaşılır bilgiyi tüketicilere ve müteşebbislere aktarabilmeleri önem arz etmektedir. Bu konu üzerinde gerek sertifika kuruluşlarının gerekse alanda çalışmalar yapan araştırmacıların özen göstermeleri gerektiği düşünülmektedir.

HELAL AMBALAJLAMA VE ETİKETLEME

Doç. Dr. Ramazan Kurtođlu
Öđr. Gör. Alperen Timuçin Sönmez

GİRİŞ

Dođada bulunan diđer canlılar gibi insanlar da yařadığı sürece sürekli olarak tüketim yapmaktadır. Ancak insanın tüketim davranışlarını diđer canlılardan ayıran en temel nokta, tüketimin sadece fiziksel ihtiyaçların giderilmesi güdüsüyle yapılmamasıdır. İnsan, ihtiyaçlarını giderirken psikolojik ve sosyolojik gereksinimlerini tatmin etmeyi de tüketim faaliyetlerine yansıtmaktadır. İnsanlarda tüketim maddi ihtiyaçların yanında manevi boşlukların doldurulmasını da kapsamaktadır (Bakır ve Çelik, 2013: 47). Tüketiciler herhangi bir ürüne satın alma arzusu ile yöneldiğinde kendi ihtiyaçları ile çevresel ve sosyolojik koşulların dengeli bir uyumu ile kendi tatminini sağlamak durumundadırlar. Tüketim davranışının dış faktörlerden etkilenme özelliđi taşıması, deđişimlere uyum sağlayabilen bir yapıya sahip olduğunu göstermektedir. İnsanların tüketim amacıyla yaptıkları satın alma davranışını etkileyen birçok faktör vardır. Tüketim kalıpları üzerinde bazı dış faktörlerin etkisi kısa süreli iken bazılarının ise uzun dönemlidir. Kişisel ve sosyal deđerlerimiz genel anlamda davranışlarımızı yönlendirmektedir. Bu durumda tüketim ve satın alma davranışlarımızın da deđerlerimizden etkilendiđi söylenebilmektedir (Odabaşı ve Barış, 2013: 35-216). Bu çerçevede düşünülüdüğünde bireyin tüketim davranışı ile din arasında, ihtiyaçların tatmin edilmesi noktasında akılcı ve karşılıklı bir ilişki vardır (Demirezen, 2015). Dinî inançlar, pazarlama literatüründe kültürel faktörlerin anahtarı sayılmakta ve tüketici davranışlarını, dolayısıyla da satın alma davranışlarını büyük ölçüde etkilemektedir. Çünkü dinî deđerlere bađlılık ile yaşam biçimi arasında dođrusal bir ilişki vardır. Bu durum da bireyin neleri tüketeyeceđi konusundaki tercihlerini etkilemektedir (Öztürk vd., 2015: 143). Dinî deđerlere bađlılık ve tüketim arasındaki bu ilişki ürünlerin dinî deđerlere uygunluđu konusunda daha derinlemesine ve titiz düşünülmesi gerekliliđini ortaya çıkarmaktadır. Dünyadaki en yaygın dinlerden biri olan İslam dininin kurallarına uygun olarak üretilen ürünler helal ürünler ola-

özellikle enzimler, katkı maddeleri gibi içeriklerin helallik özellikleri açısından yeterli bilinç seviyesinde olmadığı söylenebilir.

Çalışmadan ulaşılabilecek bir başka sonuç ise kalite algısı ile ilgilidir. Helal etiketli ürünlerin aktarmak istediği bilgi içeriği ve pazarlama mesajı ile ilgili tüketici bilinç seviyesi yüksek olmasa da helal etiketinin Müslüman olan tüketicilerin yanı sıra Müslüman olmayan tüketiciler tarafından da bir kalite göstergesi olarak benimsendiği görülmektedir. Bu durum, helal ürün pazarının genişlemesini sağlamaktadır.

HELAL TÜKETİM PAZARI

Dr. Öğr. Üyesi Melda Aslan

GİRİŞ

Günümüzde helal pazar artık sadece gıda sektörüyle sınırlı kalmayıp moda, kozmetik, ilaç ve tıbbi cihazların yanı sıra lojistik, turizm, finansman, pazarlama, basılı ve elektronik medya, paketlenme ve markalaşma gibi hizmet sektörü bileşenlerini de kapsayacak şekilde genişlemiştir. Buna göre, küresel helal endüstrinin ekonomik değerinin bir bütün olarak şu anda yaklaşık 2 trilyon dolar (İslami finans hariç) olduğunu tahmin edilmektedir (DinarStandard, 2022: 3). Ekonomik anlamda böylesine büyük bir yapıyı ifade eden helal pazar, son zamanların en hızlı büyüyen pazarı olarak ifade edilmektedir (Shah vd., 2022: 1264; Abu-Daibes, 2018: 329). Helal temelli pazarda yaşanan bu hızlı büyüme, helal/İslami pazarlama ile birlikte akademik alanda da ilgiyi artırmıştır. Sandıkçı ve Ger (2011: 487), Müslüman tüketicilere olan ilginin çeşitli ekonomik, sosyal, kültürel ve politik nedenlerden kaynaklandığını belirtmişlerdir. Bu anlamda, İslam'ın dönüştürücü rolünü araştıran ve günlük yaşam üzerindeki etik, ekonomik, siyasi, kültürel ve sosyal etkilerini tartışan çeşitli çalışmalar da ortaya çıkmaya başlamıştır (Dekmejian, 1995; Esposito, 1998; Tibi, 2001).

Helal pazarın çekici bir pazar konumuna gelmesinde pek çok etken bulunmaktadır (Aniqoh ve Hanastiana, 2020: 44; Azam ve Abdullah, 2020: 50-54). Örneğin; helal kavramı, aynı zamanda Tayyib kavramı ile ilişkilendirilmektedir. Dolayısıyla helalin anlamı, İslam'da izin verilen ve insan için en iyi olabilecek her şey olarak tanımlanmaktadır (Azam ve Abdullah, 2020: 47). Etik değerlerin dinî değerlerle bütünleşmesi, helal endüstrinin sınırlarını dünya genelinde Müslüman tüketicilerle birlikte gayrimüslim tüketicilere de genişleterek pazarın çekici bir konuma gelmesini sağlamıştır. Bunun en önemli nedeni, helal endüstrisi tarafından benimsenen hayvan iyilik hâli, sosyal sorumluluk, çevre dostu, yeryüzünün korunması, ekonomik, sosyal adalet ve etik gibi değerlerin günümüz gayrimüslim tüketiciler tarafından da bir yaşam tarzı olarak kabul edilmesidir (Nasr, 2009: 123; Billah vd., 2020: 326).

temelli yeni sektörlerin varlığına işaret etmektedir. Bu amaçla mevcut literatür ve ortaya koyulan raporlar aracılığıyla sektörün mevcut durumunun değerlendirilmesi; uzun vadede, sektördeki gerçek koşulları anlamak için ampirik çalışmaların yapılması gerekmektedir.

Son olarak pazardaki fırsatlara yönelik farkındalığın sadece tüketici, akademisyen, ticari girişimcilerle değil aynı zamanda kurum ve kuruluşlar, yerel yönetimler ve hükümet olmak üzere tüm birimlerle eşgüdümlü olarak özverili bir şekilde yürütülmesi gerekmektedir.

HELAL PAZARLAMA VE MARKALAMA

Dr. Öğr. Üyesi Bekir Özkan

GİRİŞ

Pazarlama anlayışının yıllar içerisinde değiştiği ve geliştiği yoğun rekabet ortamında işletmelerin varlıklarını devam ettirebilmesi için farklı pazarlama stratejileri kullanmaları bir zorunluluk hâline gelmiştir. Müşteri odaklı bir pazarlama anlayışının hâkim olduğu günümüz dünyasında, işletmeler tüketici ihtiyaçlarını karşılamak için ellerinden gelen bütün çabayı göstermek durumundadırlar. Helal ürünlerin pazarlanması da işletmelerin rekabet gücü elde edebilmeleri için uygulayabileceği pazarlama stratejileri arasında yer almaktadır. Helal ürünlerin satış ve pazarlaması sadece dinî ihtiyaçların karşılanması için değil ticari bir avantaj elde etmek düşüncesiyle de işletmeler tarafından kullanılmaktadır.

Günümüz dünyasında pazarlamacılar, tüketicilerin karar verme süreçlerini şekillendiren faktörlere bağlı olarak müşterilere hitap etmek ve onları çekebilme için çeşitli yollara başvurmaktadırlar (Shah vd., 2020: 1641). Bu yollardan bir tanesi de bireylerin dinî hassasiyetlerine göre ürünler üretmek ve bu yöndeki ihtiyaçlarını karşılamaktır. Bu durum farklı dinler için söz konusu olabileceği gibi özellikle Müslüman nüfusun fazla olduğu yerlerde Müslüman tüketiciler için helal ürünlerin üretilmesi ve pazarlanması şeklinde karşımıza çıkmaktadır. Dinî hassasiyeti olan kişilerin tüketim alışkanlıklarına dikkat ettiği, başka bir deyişle dinin tüketim üzerinde etkili olduğu (Delener, 1994: 46; Assadi, 2003: 11; Esso ve Dibb, 2004: 706; Mokhlis, 2009: 81; Kızılgın ve Özkan, 2014: 35) ve Müslüman tüketicilerin gıda alışverişlerinde helal konusuna öncelik verdikleri (Soesilowati, 2010: 156) düşünüldüğünde helal ürünlerin pazarlanması daha büyük bir öneme sahip olmaktadır.

Marka olgusu geçmişten günümüze mal ve hizmetlerin yanı sıra işletmelerin, kişilerin, destinasyonların vb. unsurların ayırt edilmesinde de kullanılmaktadır. İşletmeleri ve ürünlerini rakiplerinkinden ayırt etmeye yarayan en önemli unsurlardan biri markadır. Birçok ürün için olduğu gibi helal ürünlerin pazarlanmasın-

Sonuç olarak, helal ürünlere yönelik yapılan pazarlama ve markalama faaliyetleri bir bütün olarak ele alınabilir. Yani söz konusu alanda faaliyet gösteren şirketler pazarlama ve markalamaya yönelik stratejiler geliştirirken bu iki olguyu birbirinden bağımsız olarak düşünmemelidir. Geliştirilecek olan bu stratejiler gıda, kozmetik, ilaç, turizm, lojistik vs. gibi helalin söz konusu olduğu bütün alanlarda kendi içerisinde farklılık gösterebilir.

TÜKETİCİ DAVRANIŞLARI AÇISINDAN HELAL TÜKETİM

Doç. Dr. Fatih Koç

GİRİŞ

Bireylerin davranışlarını şekillendiren faktörlerden bir tanesi de dindir. Din bireylerin ibadetlerini şekillendirdiği gibi sosyal hayatlarını da düzenlenmektedir. Bununla birlikte, birçok birey satın aldığı ürünleri, benimsemiş oldukları dinin getirdiği kurallara uygun olarak seçmektedir. Bu noktada, dinin tüketici tutum ve davranışlarına yön veren önemli bir öge olduğunu söylemek gerekir.

Helal tüketim kavramı, İslam dinin getirdiği helal ve haram kavramları ile ilişkilidir ve bireyin İslam dininin izin verdiği ürünleri tüketmesi ve izin vermediği ürünlerden kaçınmasını ifade etmektedir. Helal tüketim kavramı günümüzde gıda, finans, kozmetik, giyim, konaklama ve bankacılık gibi birçok alanda kendini göstermektedir (Tuhin vd., 2022: 672).

Dünya genelinde, yaklaşık 2 milyar Müslüman yaşamaktadır (World Population Review, 2022). Bu nüfusun büyük bir çoğunluğu İslami kuralları dikkate alarak tüketim yapmaktadır. Ayrıca Müslüman ve Müslüman olmayan kişiler dinî inançlarının dışında sağlık, temizlik ve lezzet gibi nedenlerle helal diye ifade edilen mal ve hizmetleri tüketmeyi tercih etmektedir (Burgmann, 2007). Helal tüketim birçok alt sektörden oluşan büyük bir endüstri hâline gelmiştir (Tieman, 2021:10). Her geçen gün yeni sektörlerin helal tüketim alanına dâhil olması, dünyada Müslüman nüfusun artması ve diğer dinlere mensup kişilerin çeşitli nedenlerle daha fazla oranda helal ürünlerini tercih etmeye başlaması bu alanın daha da büyüyeceğini göstermektedir.

Tüm bu açıklamalar, helal tüketim kavramının ne kadar önemli olduğunu ortaya koymaktadır. Bu nedenle bu çalışmada, helal tüketim kavramı detaylı bir şekilde açıklanmaya çalışılacaktır. Buradan hareketle aşağıdaki bölümlerde, helal satın alma davranışı ve helal tüketici kavramları detaylı bir şekilde incelenmiştir.

ma durumu tüketiciler için sorun teşkil etmektedir. Ayrıca ülkedeki işletmelerin kar vb. güdülerle hareket etmesi sonucu, bazı helal kriterleri göz ardı etmelerine neden olmaktadır. Bu noktada, Müslüman nüfusun çoğunlukta olduğu ülkelerde de helal sertifikası önem kazanmaktadır. Hatta Müslüman nüfusun çoğunlukta olduğu birçok ülkede yabancı işletmeler ürünleri için helal sertifikası almaktadır. Müslüman nüfusun azınlıkta olduğu ülkelerde tüketiciler helal ürünü elde etmek için özel bir çaba içerisinde. Bu gruptaki tüketicilerin helal tüketim farkındalık düzeyi daha yüksektir. Helal farkındalık düzeyi yüksek olan bir diğer grup da seyahat eden Müslüman tüketicilerdir. Bu tüketiciler, Müslüman olmayan veya azınlıkta olan ülkelere seyahat ettiklerinde helal tüketim konusunda (özellikle gıda) hassasiyet göstermektedir. Son yıllarda helal tüketici sınıfına giren yeni bir kitle daha vardır. Bu kitle İslam dinine mensup olmayıp sağlık, hijyen ve lezzet gibi nedenlerle helal ürünleri tercih eden kişilerdir.

Helal tüketici başlığı altında incelenen başka bir konu da tüketicilerin demografik özellikleridir. Aslında helal tüketim davranışının demografik özelliklere göre farklılık göstermesi beklenmemektedir. Çünkü bu davranış dinî gerekçelerle yapılıdır. Dinine uygun yaşayan bireylerin hiçbir özelliğe göre farklılık göstermesi gerekir. Literatürdeki çalışmalar incelendiğinde demografik özelliklere göre bazı farklılıkların olduğu ortaya çıkmıştır. Burada ön plana çıkan ilk değişken eğitimidir. Dinî eğitim alan kişilerin helal farkındalık, bilgi ve helal kurallarına uygun davranma eğilimi oldukça yüksektir. Ancak dinî eğitim dışındaki gruplarda çok ciddi bir farklılık yoktur. Cinsiyet açısından bu konu ele alındığında birçok ülkede ve birçok üründe farklılık olmadığı söylenebilir. Ancak kişisel bakım ürünleri konusunda kadınların erkeklere oranla daha fazla helal ürün tüketim niyetinde olduğu söylenebilir. Demografi açısından ele alınan bir diğer konu yaştır. Yaş ile ilgili olarak kuşak farklılıkları ve genç nesil üzerine yapılan çalışmalar daha fazladır. Genç tüketicilerin helal tüketim konusunda olumlu tutuma sahip oldukları söylenebilir. Ancak göçmen olan genç nesiller, içinde buldukları ülkenin yaşam tarzına daha kolay uyum sağlamaktadır ve tüketim konusundan daha serbest hareket etmektedirler.

İSLAMİ FİNANS

Dr. Öğr. Üyesi Tuğba Eyceyurt Batır

GİRİŞ

Geleneksel finans, dünyada yüzyıllar boyunca kullanılan klasik borç sözleşmelerine dayanan bir sistemdir. Finansal işlemlerin temel kurumu banka olarak kabul edildiğinde modern anlamda ilk bankacılık temellerinin 12. yüzyılda İtalya'ya dayandığı, dolayısıyla geleneksel finansın bu tarihte başladığı söylenebilir. Buna karşılık faizsiz finans veya İslami finans kavramı ise İslamiyet'in doğuşuyla bazı yatırım ve finansman sözleşmelerinin kullanılması sonucu ortaya çıkmış ve 1975 yılına kadar ise banka formunu almamıştır (Al-Jarhi, 2017: 117; Chachi, 2005: 3).

İslami finans en genel tabiriyle İslam hukukuna uygun olarak yürütülen finansal sistem olarak tanımlanabilir. İslam hukuku şeriat olarak adlandırıldığı için İslami finans, şeriat hükümlerine göre uygulanan finansal işlemlerin yürütüldüğü bir sistem olarak da ifade edilebilir.

İslami finans yalnızca İslam ülkelerinde değil Müslüman olmayan ülkelerde de önemini artırmış, özellikle kriz dönemlerinde kendilerine has prensipleri ile krize karşı daha güçlü ve başarılı bir sistem olabileceği düşünülmüştür. Sadece ticaret yolu ile para kazanması ve aşırı riskli işlemlerin yasak olması hem ekonomiyi canlandırma bakımından hem de olası kriz durumlarında İslami bankaları avantajlı hâle getirmektedir. Bu avantajlar ve İslami finanstaki gelişim potansiyeli İslami finansı çalışma alanı olarak daha popüler hâle getirmiştir.

1. İSLAMİ FİNANS KAVRAMI

Modern İslami finansın temelleri, 1940'lı yılların ortalarında tartışılmaya başlanmıştır. 1940'lı yılların sonlarından itibaren genellikle Pakistanlı bilim insanları tarafından şeriata uygun finansal sisteme yönelik teorik çalışmalar yapılmıştır. 1970'li yıllarda ortaya çıkan petrol krizi ve petrol fiyatlarının 4 katına çıkması, Körfez ülkelerinde önemli ölçüde sermaye birikimine sebep olmuştur. Suudi Arabistan Kralı'nın ümmetçilik politikası, petrol krizi ile oluşan sermaye

yaşanmış, kamu desteğiyle Vakıf Katılım, Ziraat Katılım, Emlak Katılım gibi yeni katılım bankaları sisteme dâhil olmuş ve tekaful şirketleri kurulmuştur. Ancak diğer ülkelerin İslami finans gelişim skorları ve İslami finansal varlığa sahip olma oranları incelendiğinde Türkiye'deki gelişimin diğer ülkeler ile rekabet edebilir boyutta olmadığı görülmektedir. Bununla beraber, kamu katılım bankalarının sektöre giriş yapması ve varlıklardaki hızlı büyüme Türkiye'de de İslami finansın gelecek vadettiğini göstermektedir.

yapılan yardımlar ve yardımın yapılmasına aracılık eden kurumsal ve kurumsal olmayan yapıların özellikleri. Gelecek çalışmalar göçmenlere yardım etme davranışını çok boyutlu yapısını dikkate alacak şekilde ölçmeli ve incelemelidir.

Son olarak yatay kesitli veriye dayanan regresyon analizinin bulguları birlikte değişim analizi (korelasyon analizi) kapsamında değerlendirilmelidir. Demografik özellikler dışarıda bırakıldığında bireylerin sosyoekonomik ve aidiyet özelliklerin tahmin edilen etkileri bazı sorunlar yüzünden neden-sonuç ilişkisini yansıtmayabilir. Mesela bireylerin gözlenmesi mümkün olmayan bazı özellikleri hem sosyoekonomik veya aidiyet özelliklerini hem de yardım etme davranışını etkileyerek tahmin edilen ilişkilerin yanlı olmasına yol açabilir. Bireylerin gözlenemeyen özellikleri için diğerkâmlık, şefkatli ve adaletli olma yatkınlıkları örnek olarak verilebilir. İleride yapılacak çalışmalarda gerekli verileri toplayarak ve neden-sonuç analizinin yöntemlerini uygulayarak yardım davranışını biçimlendiren etkenler açığa çıkarılmalıdır.

BÖLÜM 4

TÜRKİYE'DE EKONOMİK KRİZ VE SURİYELİ MÜLTECİLERİN SOSYAL KABULÜ: DEĞİŞİM ANALİZİNDEN BULGULAR

4.1 Giriş

Küresel veya ulusal ölçekteki ekonomik ve siyasi krizler, iklim değişikliği ve salgınlar gibi çok boyutlu krizler toplumları değişik açılardan olumsuz etkiliyor. Türkiye gibi tarihsel ve güncel sorunlarla boğuşan gelişmekte olan ülkeler söz konusu krizlerin etkilerini daha fazla hissediyor. Bu durum özellikle ekonomik kriz için geçerlidir. Nitekim ekonomik kriz bir yandan bireylerin işgücü piyasasındaki konumunu, gelirini, fiziksel ve psikolojik sağlığını olumsuz etkilerken (Fallon ve Lucas, 2002; Margerison-Zilko, 2016) öte yandan çocukların eğitim ve sağlık çıktılarını azaltıyor (Paxson ve Shaday, 2005; Duryea vd., 2007). Ekonomik kriz ayrıca bireylerin siyasi tutumlarını ve davranışlarını değiştiriyor (Margalit, 2019). Örneğin, kriz bireylerin oy verip vermeme davranışına ile siyasi parti tercihine tesir ediyor (Hall vd., 2017). İlaveten, kriz yeniden dağıtım politikası ve kamu sektörünün rolü gibi kamu politikalarıyla ilgili tercihler ile siyasi kurumlara olan güveni etkiliyor (Kroknes vd., 2016; Fishman vd, 2018)

Ekonomik krizin etkisinin görüldüğü başka bir alan gruplar arası ilişkilerdir. İlgili yazın, özellikle ekonomik kriz sonucunda yerlilerin (iç grubun) göçmenlere (dış gruba) karşı tutumlarındaki değişimi mercek altına almıştır (Hatton, 2016; Valentove ve Callens, 2019). Bu bağlamda 2010'lu yıllarda Türkiye'de gerçekleşen iki olay, ekonomik kriz ile yerlilerin göçmenlerle ilgili tutumları arasındaki bağı irdelemek için emsalsiz bir imkân sağlamaktadır. Birincisi, 2011'den beri süren Suriye iç savaşı nedeniyle yaklaşık 3.5-4 milyon Suriyelinin -2019 yılının sonu itibarıyla- Türkiye'ye yerleşmesidir. İkincisi, küresel ekonomideki eğilim-

ve ekonomik dışı alanlarda bu grupların ortak menfaatler ile iş birliği geliştirmesini teşvik etmelidir. Ayrıca kamu kurumları, özel sektör ve sivil toplum örgütlerinin aktif şekilde rol alacağı ve gruplar arası bağı güçlendiren olumlu temasların gerçekleşebileceği ekosistem inşa edilmelidir. Burada özellikle hem gerçekteki hem de algı düzeyindeki sıfır-toplamlı toplum anlayışının, yani “biz” ve “onlar” yaklaşımının ortadan kaldırılması gerekmektedir. Dolayısıyla gerekli kamu politikaları Türkiye-Suriye göç sistemindeki tüm aktörler, Küresel Kuzey'deki ülkeler ve diğer tüm uluslararası aktörlerin aktif katılımıyla hayata geçebilir. Bu da ancak çok aktörlü, çok yönlü ve çok katmanlı ortak çalışma perspektifiyle olur.

EKONOMİK KRİZ GENÇ YETİŞKİMLERİN SURIYELİ GÖÇÜNE YÖNELİK EKONOMİK TEHDİT ALGISINI FARKLI ETKİLEDİ Mİ? TÜRKİYE'DEN BULGULAR

5.1 Giriş

Genç yetişkinlik dönemindeki ekonomik koşullar bireyin yaşam döngüsü evrelerindeki ekonomik ve siyasi çıktılarına etkilemektedir (Margalit, 2019; Wachter, 2020). Bu dönemin görece öneminin bir nedeni, bireyin genç yetişkinliğinde üniversite eğitimi, çalışma hayatı ile aileden ayrılma, evlenme ve çocuk yapma gibi kritik alanlarda ilk deneyimlerinin ortaya çıkması ile bu deneyimlerin kısa ve uzun dönem tesirlerinin olmasıdır (Long, 2015; Kondo, 2016, Matsudaria, 2016; Hannes ve Wachter, 2019). Ayrıca birey pek çok konuyla ilgili tutumlarının ve davranışlarının belirlenmesinde önemli rol oynayan dünya görüşünü büyük ölçüde genç yetişkinlik yıllarında inşa etmektedir (Krosnik ve Alwin, 1989; Alwin ve Krosnick, 1991; Sears ve Brown, 2013). Öyleyse bireyin kendisini pek çok açıdan inşa ettiği yılları kapsadığı dikkate alındığında genç yetişkinlik döneminde değişik ekonomik ortama maruz kalmak, uluslararası göç gibi kritik ekonomik ve siyasi olaylarla ilgili kuşaklar arasında farklı bakış açılarının benimsenmesine yol açabilir (Inglehart, 1971, 1981; Inglehart ve Abramson, 1994; Giuliano ve Spilembergo, 2014; O'Grady, 2017; Roth ve Wohlfart, 2018; Laaker, 2020; Cotofan vd., 2021).

Bu bağlamda çalışma, Türkiye'de 2018-2019 ekonomik kriz sonucunda Suriyeli göçün ekonomik etkisine yönelik algının genç yetişkinler ile yaşlı yetişkinler arasındaki değişimini incelemektedir. Bu incelemede, KONDA Araştırma'nın Şubat 2016 ve Ocak 2019'da gerçekleştirdiği barometre anketlerinden faydala-

Bu bağlamda, Covid-19 pandemisine genç yetişkinliğinde maruz kalanlar ile kalmayan arasında Suriyeli göçüne yönelik tutumların nasıl değişeceği önemli bir toplumsal mesele olarak karşımıza çıkmaktadır. Bu çalışmanın bulguları, tesir ettiği alanlar ile tesirlerinin büyüklüğünün sınırlı olmasına rağmen 2018-2019 ekonomik krizinin genç yetişkinlerin Suriyeli göç algısını yaşlı yetişkinlerinkinden daha olumsuz yönde değiştirdiğini işaret etmektedir. Bu bulgulara dayanarak, Covid-19 pandemisinin Suriyeli göçüne yönelik ekonomik tehdit algılarını katmerleştirerek genç yetişkinlerin bu göçe ait görüşlerini daha olumsuz yönde etkileyeceği ileri sürülebilir. Bu olumsuz öngörünün gerçekleşmesini önlemek gayesiyle genç yetişkinlerin ekonomik ve sosyal konumunu güçlendiren kamu politikaları ile okul, işyeri ve diğer kamusal alanlarda genç yetişkinler ile göçmenlerin çift-yönlü entegrasyonunu destekleyen uygulamalar hayata geçirilmiştir. Böylece bir yandan genç yetişkinlerin çeşitli yaşam alanlarındaki Covid-19 pandemisi kaynaklı sorunlar bertaraf edilirken diğer yandan göçe yönelik dışlayıcı yaklaşım benimseme ihtimali ortadan kaldırılabilir.

sıralaması veya gruplandırması için kullanılmakla birlikte birden fazla kriter ve seçeneğin olduğu durumlarda seçeneklerin tercih edilmesi, seçeneklerin tercih sıralaması veya gruplandırması amacıyla oldukça yaygın olarak kullanılır (Pekkaya ve Dökmen, 2019:931).

ÇKKV yöntemleri özellikle II. Dünya Savaşından sonra önem kazanmaya başlamış ve günümüze kadar birden çok farklı yöntem literatüre tanıtılmıştır. Bu yöntemlerden bazıları zorlukları veya kullanımının uygun bulunmaması sebebiyle sıkça kullanılmamışsa da birçoğu oldukça kabul görmüş ve birçok uygulamada yer bulmuştur. Genel olarak karar verme yöntemlerini kriterlerin ağırlıklarının belirlendiği ve alternatiflerin sıralandığı yöntemler olarak ikiye ayırmak mümkündür. Kriter ağırlıklarının belirlendiği yöntemler ise objektif ve sübjektif yöntemler olarak ikiye ayrılmaktadır. Bu çalışmada kriter ağırlığı belirleme ve sıralama yöntemlerinin ayrı ayrı açıklaması yapılmıştır.

2. KRİTER AĞIRLIĞI BELİRLEME YÖNTEMLERİ

Bilimsel arařtırmalarla topluma ışık tutmak, toplumdan bir adım önde olmak ve ortaya çıkan bir problemin varlığında güncel arařtırmalarla karar vericiye yardımcı olmak bilim insanlarının en önemli görevidir. Karar vericinin karşılařtığı karar problemleri bilimsel olarak çeřitli kriterlere ve alternatiflere göre çözölür. Kriterlere karar vericinin görüşlerine göre veya alternatiflerin yapısına göre ağırlık deęerleri atamak bilimsel arařtırmalarda önemli bir yer etmiştir. Hatta denebilir ki karar problemlerinin yarısını çözmek kriterlere uygun kriter ağırlığı deęerleri atamakla gerçekleştirilebilir. Problemleri en iyi şekilde çözebilmek için literatürde günümüze kadar birden çok kriter ağırlığı belirleme yöntemi tanıtılmıştır. Bu çalışmada kriter ağırlığı belirleme yöntemleri sübjektif ve objektif yöntemler olarak ikiye ayrılarak incelenmiştir.

Sübjektif yöntemler karar vericinin bilgi, deneyim ve kişisel görüşlerini kullanır. Karar verici belirlenen kriterlere uygun ağırlıklar atfetmekte, ardından çeřitli matematiksel işlemler sonucunda kriter ağırlıkları belirlenmektedir. Objektif yöntemlerde ise karar vericinin kriter ağırlığı belirlemede kişisel yargılarına, yanlı tutumlarına, özne deęerlendirmelerine ihtiyaç duymadan kriterlerin alternatiflere göre aldıkları deęerler kullanılmaktadır. Uygun matematiksel işlemler yapılarak kriter ağırlıkları belirlenmektedir. Bu çalışmada kriter ağırlığı belirlemede önemli yeri olan klasik yöntemlerle birlikte son zamanlarda literatüre tanıtılan güncel yöntemler bu alanda çalışma yapacak uygulayıcılara, akademisyenlere ve konunun paydařlarına bilgi sunması açısından incelenmiş, yöntemlerin tanıtılmasından sonra çözüm aşamaları açıklanmış ve ardından çeřitli uygulamalar gerçekleştirilmiştir.

2.1. Sübjektif Yöntemler

Sübjektif yöntemler kriter ağırlıklarını uzman ya da karar vericinin kişisel/öznel bilgisi, tecrübesi ve yargılarına göre belirlemektedir. Uzmanın/yanıtlayıcının karar problemindeki bilgisi ve görgüsüne göre kararlarını probleme dâhil etmesi kriter ağırlığı belirlemeye kişisel ve önemli bir deęer katmaktadır. Sübjektif ya da özne yöntemlerde kimi zaman kriterler tek yönlü/iki yönlü karşılařtırılmakta,

si için kullanılan Entropi yöntemindeki kriterlerin değişkenliğini ve kriterlerin etki kaybını ölçen CILOS yönteminin zayıflıklarını tek bir yöntemle karşılamak amaçlanmıştır.

IDOCRIW yöntemi literatürde çeşitli çalışmalarda kullanılmıştır. Bunlardan bazıları; Trinkūnienė vd. (2017) kalite güvencesinin değerlendirilmesinde, Čereška vd. (2018) çelik halat teşhis verilerinin analizinde, Alao vd. (2020) enerji teknolojisinin seçiminde, Pala (2021) ulaştırma işletmelerinin finansal performans analizinde IDOCRIW yöntemini kullanmıştır. IDOCRIW yöntemi basit bir hesaba dayanır. Trinkūnienė vd. (2017:1165) bu hesabı aşağıdaki gibi açıklamıştır.

$$w_j = \frac{q_j w_{e_j}}{\sum_{j=1}^m q_j w_{e_j}} \quad (1)$$

IDOCRIW yöntemini örnek üzerinde incelemek gerekirse Trinkūnienė vd. (2017:1165)'nin çalışmasında 7 kriterin bütünleştirilmesinde başarılı bir şekilde kullanıldığı söylenilebilir. Alternatiflerin kriterlere göre aldıkları değerler karar matrisinde gösterilir ve yöntemlere göre ağırlıklar elde edilir.

Karar matrisine göre Entropy ve CILOS yöntemlerinin ağırlıklarının hesaplanması sonucunda IDOCRIW yöntemiyle nihai kriter ağırlıkları bulunmuştur. C7 kriteri %24,74 ağırlıkla ilk sırada, C3 kriteri %6,38 ağırlıkla son sıradadır.

3. ALTERNATİFLERİ SIRALAMA YÖNTEMLERİ

Karar probleminin önemli bir aşaması olan alternatiflerin değerlendirilmesi aşamasında kriterlere göre belirlenen alternatif seçeneklerin en uygun olanının saptanması gerçekleştirilir. Bunun için öncelikle kriterler belirlenir, kriterlerin ağırlıkları belirlenerek veya eşit ağırlık verilerek sonrasında alternatifler sıralanır.

Yöneylem araştırması literatüründe geçmişi çok fazla eskilere dayanmayan, ikinci dünya savaşı sırasında ve sonrasında bu alana önem verilmesiyle birlikte karar bilimcileri tarafından çeşitli yöntemler tanıtılmıştır. Alternatiflerin belirlenmesi için kullanılan yöntemler aşamalarıyla birlikte uygulamalı olarak bu bölümde açıklanmıştır.

3.1. ARAS Yöntemi

ARAS (Additive Ratio Assessment) yönteminde bir alternatifin karmaşık nispi etkinliğini veya verimliliğini belirleyen bir fayda fonksiyonu değeri, bir uygulamada göz önünde bulundurulmuş ana kriter değerlerinin ve ağırlıklarının nispi etkisi ile doğru orantılıdır (Zavadskas ve Turskis, 2010:163). ARAS yöntemi Zavadskas ve Turskis (2010) tarafından 2010 yılında geliştirilmiş ve ofis odalarında mikro iklimin değerlendirilmesi için uygulanmıştır (Goswami ve Behera, 2021:953). Alternatiflerin belirlenen ideal alternatifle kıyaslanmasına ve ideal alternatife oransal benzerliğe dayanır (Ateş ve Topal, 2021:1106). ARAS yönteminin matematiksel hesaplamaları için kullanılan prosedürler, TOPSIS, VIKOR ve PROMETHEE gibi önde gelen ÇKKV yöntemlerinden daha basittir (Toygar vd., 2022:6). ARAS yöntemi literatürde birçok alanda çeşitli çalışmalarda kullanılmıştır. Güneş enerjisi santrali kuruluş yeri seçiminde (Ateş ve Topal, 2021), malzeme taşıma ekipmanı seçiminde (Goswami ve Behera, 2021), bilişim işletmeleri için teknopark bölgesinin belirlenmesinde (Arslan vd., 2021), boş konteyner kıtlığının araştırılmasında (Toygar vd., 2022) ARAS yöntemi kullanılmıştır. ARAS yönteminin çözüm aşamaları 4 adımda açıklanabilir (Zavadskas ve Turskis, 2010; Arslan vd., 2021).

Adım 1: Karar probleminde alternatiflere ve kriterlere göre karar matrisi oluşturulur. Kriterlerin optimal değerleri belirlenir. Bunun için kriterlerin fayda veya maliyet özellikleri dikkate alınır. Fayda özelliğine sahip kriterlerde maksimum

4. BÜTÜNLEŞTİRME VE NORMALİZASYON TEKNİKLERİ

Farklı yöntemlere göre seçim ve sıralama çalışmalarında alternatiflerin tek bir sırada toplulaştırılmış/bütünleştirilmiş şekilde bir arada gösterilebilmesini sağlayan çeşitli teknikler geliştirilmiştir. Ayrıca farklı yöntemlere göre alternatifleri standart bir tabloda göstermek ve birbirleriyle aynı düzlemde işlem yapabilmek için çeşitli normalizasyon teknikleri bulunmaktadır. Bu bölümde bütünleştirme ve normalizasyon teknikleri açıklanmıştır.

4.1. Bütünleştirme Teknikleri

Çeşitli alternatiflerin bulunduğu karar problemlerinde alternatiflerden en uygun olanını seçmek için bazen tek bir karar verme yöntemi kullanılmakta, bazen de birden fazla yöntem kullanılmaktadır. Birden fazla ÇKVV yöntemi kullanıldığında bu yöntemlerin nasıl değerlendirileceği ayrı bir problem olarak ortaya çıkar. Kullanılan yöntemlerin tek bir sonuçta birleştirilmesini sağlayarak uygulayıcı veya karar vericilere bilgi sağlayan çeşitli bütünleştirme teknikleri bulunmaktadır. Seçim sonuçlarını sıralamak için 1781’de Borda, 1785’de Condorcet, 1876’da Dodgson, 1907’de Nanson, 1959’da Kemeny olmak üzere çeşitli yazarlar tarafından geliştirilmiş oylama teknikleri bulunmaktadır.

4.1.1. Borda Tekniği

Borda tekniğinin geçmişi oldukça eskilere dayanmaktadır. Borda tekniği 1781 yılında Fransız ‘de Borda’ tarafından seçim süreçlerindeki sıralama sorunlarıyla başa çıkmak için önerilmiştir (Costa, 2017:282). Borda tekniği yapılan bir oylama sonucunda ortak bir kararla en çok tercih edilen adayın belirlenmesini sağlar. Borda tekniği alternatiflerin sıra numaralarına dayanır. Bir grup alternatife verilen puan sayısı ‘n’ ise birinci tercih edilen alternatife ‘n’ puan, ikinci tercih edilen alternatife ‘n-1’ puan, üçüncü tercih edilen alternatife ‘n-2’ ve devam edecek şekilde puanlar verilir. Son sıradaki alternatif 1 puan alır. Uzlaşma için alternatifler verilen puanlarına göre toplanır ve alternatifler aldıkları puanlara göre azalan

$$r_{ij} = 1 - \frac{x_{ij} - x_j^{\min}}{\sum_{i=1}^m (x_{ij} - x_j^{\min})} \quad (20)$$

Farklı karar verme yöntemlerine göre farklı normalizasyon modelleri kullanılabilir. Karar verme yöntemlerinde belirlenen normalizasyon yöntemi yerine veri setine uygunluğuna göre diğerleri de kullanılabilir. Örneğin veri setinde uç değerlerin fazla olması durumunda bu değerlerin etkisini azaltmak için z-skor yöntemi kullanılabilir veya kriter değerlerinin maksimum ve minimum farkı değerlerini birlikte işin içine katarak değerlendirme yapmak istendiğinde doğrusal normalizasyon sıkça kullanılabilir.
